

BEAT PROJECT

WP 3 – Activity 3.2

Case study

Name of the organization (Technology Transfer Offices)	Science and Technology Park Belgrade (STP Belgrade)
Country	Serbia
Major services provided	<p>The Science Technology Park Belgrade is intended for startups and growing high-tech development companies (SMEs and development centers of international companies), helping them develop and commercialize innovative products and services.</p> <p>STP Belgrade has been established as a partnership between the Republic of Serbia Government (represented by the Ministry of Education, Science and Technological Development), the City of Belgrade and the University of Belgrade, based on international experiences and best practices, thus becoming a place where Institutions meet Science and Industry.</p> <p>STP Belgrade has become a new business core of the city that brings together dozens of high-tech development companies/teams by providing different programs and activities, and plays an essential role in developing the innovation ecosystem in Serbia.</p>

	STP Belgrade is the ideal environment for businesses wishing to be part of a dynamic high-tech community, which creates value-added by creating development opportunities for businesses and entrepreneurs.
Best practices implemented	<p>STP Belgrade currently hosts:</p> <ul style="list-style-type: none"> • The Business & Technology Incubator of Technical Faculties that has support programs intended to help startups/development teams. • The Innovation Fund that provides financial instruments through the early development program and other other innovation development programs. <p>The Business & Technology Incubator Belgrade has been established as a partnership between the four technical faculties of the University of Belgrade (Civil Engineering, Mechanical, Electrical and Technological/Metallurgical), the Municipality of Palilula and the Democratic Transition Initiative, based on international experiences and best practices (https://ntpark.rs/en/incubator/).</p> <p>For domestic and foreign startup companies, MSPs and I&R departments of large companies STP Belgrade offer a set of services adjusted to their needs (https://ntpark.rs/en/services/)</p>
Do you know of any company, in your network, being implementing innovative solutions in the blue economy industries?	NLT Ship Design http://ntlship.com/
Competences and resources supportive of the blue economy (innovative solutions and technologies)	n/a
Strength and weaknesses for the creation of a cross-border cluster on the shipbuilding and blue economy across Italy and Croatia	n/a
Contribution to the cluster in terms of services/activities	n/a
