

READINESS – TF3

Thematic enhancement and adaptation reports

Detailed Pilot methodologies for Citizens raise awareness

According to the consistency analysis done by each partner on his surveyed capitalizing HOLISTIC outcomes and best practices and proposition of some enhancement or adaptation measures considered essential for their capitalisation each partner has identified a benchmark methodology for the execution of pilot projects addressed to citizens raise awareness.

The intention of awareness campaigns is to improve citizens knowledge/readiness to react promptly and efficiently to natural and man-made hazard and outbreaks, with special focus on forest fires and earthquake threats. TF members made an in depth analyse of previous experiences, exchanged know-how and from common basis of knowledge and experience proposed individual solutions that are tailored to the specific needs of their territories.

Project targets

6 info days

6 preparatory Info day & Cross Border Awareness day

5 + 1 simulations/exercises of Civil Protection

5 + 1 exhibitions of C.P. vehicles and equipment

Share of target deliverables among the partners

LP- MOLISE REGION

Events, locations and involved/participating children & adults per event

Title: Awareness raise campaign to improve citizens' promptness

The pilot action will promote 2 Info days which will involve 250 pupils and 250 citizens each. Specifically, each event will be organized in Campobasso and will be opened to schools of the Molise Region with children between 10 and 15 (Scuole Secondaria di Primo Grado – Secondary Schools of First Degree) and adults also. The event will be organized in close collaboration with the Regional Civil Protection of the Molise Region.

A contemporary awareness campaign will be lunched through social networks (Facebook and Twitter mainly) considered the strong use that young people make of them nowadays.

Description of events

Event n. 1

Location: Campobasso

Duration: 1 day

Timetable: date to be chosen between 1 December 2018 and 31 January 2019

Agenda:

9.00-10.00: Forest fires in the Molise Region

10.00-11.00: Areas at risk of earthquake in Molise

11.00- 12.00: How to behave in case of forest fires

12.00-13.00: How to behave in case of earthquakes

13.00-14.00: The role of social networks in case of an emergency and how to use them efficiently.

Event n. 2

Location: A square or a wide open space in Campobasso.

Duration: 1 day

Timetable: date to be chosen between 1 December 2018 and 31 January 2019

Agenda:

10.00-14.00: 1 Civil Protection Exercises and exhibition of CP vehicles and equipment.

Promotion Material and equipment

- Gadgets for pupils (pencils and bookmarks)
- Leaflets
- Roll up

PP 1- DUBROVNIK NERETVA REGION

Abstract about citizens raise awareness

Citizens raise awareness campaigns are considered very important by the DNR Civil Protection Headquarters as well as the READINESS project team members. The goal is to continue with the activities which have started during the HOLISTC project dedicated mainly to the school children but students as well.

Equipment

There is no any equipment planned for procurement which might be considered necessary for the implementation of the project activities.

Preliminary information planned activities

DNR will achieve the activities planned in the AF; citizens (members of NGO's) are planned to participate during the organization of the civil protection exercises. The exhibition of the equipment procured from the READINESS funds, as well as the HOLISTC project, will be presented to the wider audience after the exercise. The organization of the cross-border event for children, prescribed in the AF, depends on the joint partnership methodology of its organization.

Estimated costs

The estimated costs are supposed to cover the costs of printing different dissemination materials. The costs are estimated to 3500 EUR. Educational dissemination materials for the HOLISTC project will be used as well (puzzles, picture and coloring books).

PP 2- MARCHE REGION

Events

- a) n° 1 Info day for academic student
- b) n° 1 local earthquake simulation with school evacuation
- c) n° 1 Exhibition of Civil Protection vehicles and equipment
- d) n° 1 Cross border Awareness Day for Children

Description of events

- a) Info day for academic student. One seminar will be organized at Polytechnic University of Marche, focused on Seismic risk and SPB instruments.
- b) n° 1 local earthquake simulation with school evacuation.
It will take place in Belforte del Chienti Municipality. The exercise will be implemented in October, at the end of the training course for volunteers and the debriefing will be done within November.
- c) Exhibition of Civil Protection vehicles and equipment. Fully equipped vehicles will be displayed on a public place together with other equipment used in disaster situations.
- d) Cross border Awareness Day for Children will consist of presenting Civil Protection units and their role in disaster situations, and educative discussion about how to behave and cooperate in case of forest fire and earthquake hazardous situations.

Materials and equipment

- Readiness project brochure, leaflets or booklets
- Educational material (see also the operational plan for SPB and training course)
- Civil protection vehicles
- Tents or gazebos

PP 3- SPLIT DALMATIA COUNTY

Events

- e) n° 1 Exhibition of Civil Protection vehicles and equipment
- f) n° 1 wildfire and combined Civil Protection simulations & exercises
- g) n° 1 Cross border Awareness Day for Children (preparatory info day + awareness day)
- h) n° 1 Info day for general population

Description of events

- e) Exhibition of Civil Protection vehicles and equipment. Fully equipped vehicles will be displayed on a public place together with other equipment such as, computers, cameras, drones, tablets and other high-tech ICT solutions used in disaster situations.
- f) Wildfire and combined Civil Protection simulations & exercises will consist of virtual simulation on our Adria Fire GIS and Adria Fire Propagator software simulator together with live demonstration exercise of most commonly encountered situations in firefighting and rescue operations.
- g) Cross border Awareness Day for Children will consist of presenting Civil Protection units and their roll in disaster situations, and educative discussion about how to behave and cooperate in case of forest fire and earthquake hazardous situations.
- h) Info day for general population will consist of demonstrating the Civil Protection units, the way they operate and their roll in disaster situations. Also there will be demonstrations of correct preventive, reactive and cooperative behavior in case of forest fire and earthquake hazardous situations. Past experiences and future plans and improvements on making the force more effective will also be presented.

Materials and equipment

- T-shirts with project logo
- Caps with project logo
- Readiness project banners
- Tents & gazebos with project logo
- Flayer, booklets, leafs...
- Various gifts and promotion materials

PP 5- FRIULI VENEZIA GIULIA

6 Events: School Camps, Awareness Day, Info Days and Seminars

Specific activities will be organized on READINESS themes for **high school students** during annual Civil Protection Schoolcamps organized by the Civil Protection of Autonomous Region Friuli Venezia Giulia.

Duration: During a week-long stage students follow theoretical lesson about civil protection, risks, emergency and safety procedures; the main activities of READINESS Project on seismic and wild fire risk will be presented by CP technicians in a **special Awareness day**.

Participation of students from Croatia partners regions will be evaluated with school authorities.

Info Days for schools and citizens with visit of CP operative center in Palmanova (CP Open Days).

Thematic **workshops** and **seminars** targeted for public officials and decision-makers and CP volunteers.

Workshops

- 2 Workshops for volunteers on seismic risk to update procedures of post-earthquake reporting according to existing procedures in autumn 2018.
- Pilot activities will be illustrated during annual Volunteer's meeting in december 2018, with exhibition of CP equipment and vehicles.

Cross border awareness

- Crossborder awareness day for children on 1 march 2019
- 1 awareness day will be held during schoolcamps in spring 2019, with possible visit by foreign delegations.

Info Days

- 1 Info Days for public officials and decision-makers for the presentation of main results of READINESS Project activities will be organized in winter 2018-2019.

Open Days

- 2 Open info days for citizens will be organized from October 2018 to January 2019, one during the combined earthquake and wildfire drill.

Team composition:

Operators of PC and other organizations (CFR, VVF, ...) with support by scientific institutions, Volunteers with experiences on wildfires, seismic risk and communication /dissemination activities.

Promotion material, equipment and costs

Effective illustrative materials based on presentations, videos and leaflets will be produced during project implementation in order to be illustrated during targeted lessons and meetings with students, public events with citizens and seminars for public decision-makers, to enhance their awareness of natural risks and best behaviors to improve people resilience to them.

- Promotional material and brochures for Info Days and public activities with students and volunteers.
- € 6.250,00

PP 6- ZADAR COUNTY

Events

- i) n° 1 Exhibition of Civil Protection vehicles and equipment as well as combined Civil Protection simulation and exercise
- j) n° 1 Cross border Awareness Day for Children (preparatory info day + awareness day)
- k) n° 1 Info day for general population

Description of events

- i) Exhibition of Civil Protection vehicles and equipment. Fully equipped vehicles will be displayed on a public place together with other equipment such as, computers, cameras, drones, tablets and other high-tech ICT solutions used in disaster situations. Combined Civil Protection simulation & exercise will consist of virtual simulation together with live demonstration exercise of most commonly encountered situations in firefighting and earthquakes rescue operations.

- j) Cross border Awareness Day for Children will consist of presenting Civil Protection units and their roll in disaster situations, and educative discussion about how to behave and cooperate in case of forest fire and earthquake hazardous situations.
- k) Info day for general population will consist of demonstrating the Civil Protection units, the way they operate and their roll in disaster situations. Also there will be demonstrations of correct preventive, reactive and cooperative behavior in case of forest fire and earthquake hazardous situations. Past experiences and future plans and improvements on making the force more effective will also be presented.
