1., 2. infopanel  
for visually impaired  
people

The mosaics inside Diocletian's palace are characterized by Christian symbols. Salomon's knot can also be seen at the 5<sup>th</sup> century basilica.

Due to its style and topic, the Diocletian's Palace mosaics resembles much more to the samples dating back 5<sup>th</sup> century, Aquileia cultural circle and Salonitan cathedral period. Two info panels for visually impaired people were installed in two places in Palace where the mosaics are.
