Short report of the activity (please write a ready-to-publish news for the website)	Participation in the International fisheries Fair Seafood EXPO GLOBAL 2019		

	<p>Friuli Venezia Giulia Region gave a huge visibility to the project DORY at the International fisheries Fair Seafood EXPO GLOBAL 2019 that took place in Brussels, the 7th and 8th of May 2019. Seafood Expo is the world's largest trade fair in the fisheries sector, with more than 2.000 exhibitors from 88 countries. Such a great opportunity to foster dissemination and networking of the project DORY.</p> <p>DORY general aims and activities were illustrated by a specific poster put on a desk in the fair premises dedicated to the Italian Ministry for fisheries. Moreover, the specific DORY project aims and activities carried out by Friuli Venezia Giulia region were discussed during a dedicated talking session scheduled in the fair programme.</p> <p>The talking session gained attention from different classes of stakeholders, from fishery sector to sea environmental conservationists and even restaurants managers. The discussion hence concerned both the protection of the fish resources and the valorization of the fishery landings through a direct commercialization to the catering and restaurants sector.</p>
