ML-Repair Reducing and preventing, an integrated Approach to Marine
Litter Management in the Adriatic Sea – Axis 3 – SO 3.3

SUMMARY

1	LIST OF PUBLIC EVENTS.....	1
2	STARTING PUBLIC EVENT	1
3	NATIONAL LEVEL EVENT HELD IN SPLIT	3
5	INTERNATIONAL/EU LEVEL MEETING.....	11

1 LIST OF PUBLIC EVENTS

In the framework of the project ML-Repair all PPs organized 4 public events:

1. Starting Public Event: opening of the communication campaign and presentation of Marine Litter Communication Strategy (MLCS) held in Split on July 12th 2018
2. National Level Event held in Split on April the 1st 2019: one day event dedicated to general public and National and regional policy makers and implementers, WP 2.4 and WP 4.1
3. National Level Event held in Venice on May 30th 2019: half day event dedicated to general public and National and regional policy makers and implementers, WP 2.4
4. International/EU Level Event (Final Project Conference) held in Venice on September 10th 2019: one day event dedicated to general public and National and regional policy makers and implementers, WP 2.4

2 STARTING PUBLIC EVENT

In accordance with the output set in Application Form, the MLCS developed specific communication kit targeting each target group selected by the project (external target publics I children and young people, local communities, domestic and foreign tourists and media, external target publics II being fishermen and fishermen associations/cooperatives, public administration bodies, FLAG's and LAGs).

MLCS (Marine Litter Communication Strategy) was developed in the 1st project implementing period in the cooperation between of all project partners under WP2 leader partner coordination.

Figure 1 – Photo of the Starting Public Event in Split

The presentation of the main aspects of MLSC took actually place on 12/07/2018 during the common event organized with PP6 (SUNCE team) in Split, Croatia – Starting public event. The purpose of the MLCS is to raise awareness of stakeholders and general public about the marine litter issue and to disseminate best practices that can be put in place by different actors (citizens, tourists, fishermen etc.)

to reach a positive solution of this hot issue. The realization of these objectives will allow keeping the commitments foreseen in the project vision and in the established strategic objectives.

Let's Beach about It! Communication campaign for preventing marine litter

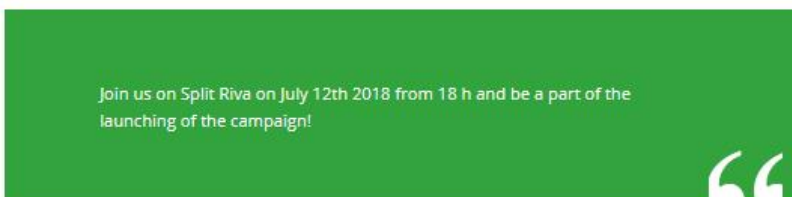

Like 0 Tweet CondiMid

July 5, 2018

It is estimated that about 80% of marine waste comes from landfills and land activities, while about 20% of waste in the sea ends as a result of (irresponsible) maritime traffic and fisheries. According to the United Nations Program for the Environment (UNEP), only 15% of the marine waste on the sea surface; an additional 15% remains in the water column, and 70% is at the sea bottom. Current estimates show that today there are over 150 million tons of plastic in the ocean. If nothing changes, by the year 2025 the ocean will contain 1 ton of plastic on every 3 tons of fish, and **by 2050 the oceans could have more plastic than fish.**

The Adriatic Sea is a semi-closed pool with slow streams, making it vulnerable to pollution. The prevailing part of marine waste consists of plastic materials, and micro-plastics is an increasing cause for concern for the degradation of the marine and coastal ecosystems, potentially endangering the functionality of the ecosystem, fishing (fishing) and tourism. So we're launching the **Let's Beach about It!** campaign.

3 NATIONAL LEVEL EVENT HELD IN SPLIT

The aim of this event was to present FfL implementation status map to general public and National and regional policy makers and implementers. The audience, mostly representatives of fishing associations and fishermen, have been informed on the App developed in the framework of the project and learned how it operates. The APP was presented by its developer, and the Map and MLCS document by project partners.

Figure 4 – Invitation to the National Event in Split

The last session was a discussion, which was very successful since most of the present were engaged in and they bring out also their problems in daily management regarding the prevention and reduction of the marine litter.

CONFERENZA

Il settore della pesca e i rifiuti in mare: strumenti e iniziative

30 maggio 2019 | 10:00 – 13:30 | Auditorium Santa Margherita – Venezia

- 10:00 Registrazione
- 10:20 Indirizzi di saluto:
- Ass. Massimiliano **De Martin** (Assessore all' Ambiente, Comune di Venezia)
 - Direzione Marittima di Venezia
- 10:40 Il progetto ML-REPAIR: un impegno congiunto Italia-Croazia nella gestione dei rifiuti marini – Giulio **Pojana**, Università Ca' Foscari
- 10:50 La pesca sostenibile e la raccolta dei rifiuti in mare in Adriatico – Tomaso **Fortibuoni**, ISPRA
- 11:05 La mappatura del *Fishing for Litter* in Adriatico come strumento di gestione – Eugenia **Pasanis**, ISPRA
- 11:20 Il ruolo dei FLAG nella gestione dei rifiuti solidi marini – Andrea **Portierj**, direttore FLAG Chioggia
- 11:35 Opportunità e problematiche dei recenti sviluppi normativi – Francesca **Ronchi**, ISPRA
- 11:50 I rifiuti marini come risorsa: il progetto MarGnet – Fantina **Madricardo**, CNR-ISMAR
- 12:05 Esperienze di mitilicoltura *offshore* con reti compostabili – Alberto **Caccin** – Regione del Veneto, Direzione Agroambiente Caccia e Pesca
- 12:20 Una soluzione per la gestione dei rifiuti provenienti dalle attività di pesca - Cristiana **Scarpa**, Comune di Venezia, Settore Progetti Strategici e Ambiente
- 12:35 ML-REPAIR: l'implementazione del *Fishing for litter* nei porti pescherecci della Croazia – Pero **Tutman** & Dubravka **Bojanić Varezić**, IOF Institute of Oceanography and Fisheries, Split
- 12:50 *Citizen science*: come i pescatori possono contribuire alla conoscenza del *marine litter* tramite l'applicazione ML-REPAIR – Andrea **Gugnali**, M.A.R.E.
- 13:05 Pannello di discussione: Francesca **Ronchi** (ISPRA)(mod.), Ass. **De Martin** (Comune di Venezia), Direzione Marittima di Venezia, Stefania **Galera** / Alessio **Spunton** (VERITAS), Renzo **Zennaro** (Consigliere Regionale Uilapesca), Giuseppe **Prioli**, (AMA Associazione Mediterranea Acquaicoltori)
- 13:30 Conclusione dei lavori e a seguire *rinfresco*

5 INTERNATIONAL/EU LEVEL MEETING

The event was organized by LP UNIVE in collaboration with all PPs and was held at Auditorium Santa Margherita (Venice, 10th of September 2019) to present project results and to find possible contribution of the project to other Interreg ITA-HR and European Projects. During this Final Conference, open both to local administrators and general public, the tools developed in the ML-Repair project have been presented and discussed with the contribution of external experts with a view to future applications in the Mediterranean Sea.

CA' FOSCARI UNIVERSITY OF VENICE, Venice, Italy

is pleased to invite you to the:

ML-REPAIR FINAL CONFERENCE

WHEN

SEPTEMBER 10th, 2019

WHERE

S. MARGHERITA AUDITORIUM, VENICE, ITALY

PARTICIPANTS AND SHORT DESCRIPTION OF THE EVENT

The ML-REPAIR project, in the framework of the cross-border Italy-Croatia Cooperation Programme, realized joint activities that provided new tools addressing Marine Litter (ML) issues involving local communities, coastal tourism and the fisheries sector.

During this conference, open to both stakeholders and the general public, these tools, together with external experiences addressing Marine Litter from other projects, will be presented and discussed with the aim of future applications in other Mediterranean Sea areas.

European Regional Development Fund
