# 1 PROJECT PRESENTATION

# 1.1 Project description

The ML-REPAIR project (REducing and Preventing, an Integrated Approach to Marine Litter Management in the Adriatic Sea) started on 01.01.2018 and lasted 21 months, ending on 30 September 2019. The general objective of the ML – REPAIR project was to prevent and reduce the input of waste in the Adriatic Sea through the involvement of the main stakeholders. The Adriatic Sea is a semi-closed basin with slow streams, making it vulnerable to pollution. Marine Litter (ML) is defined as any solid, manufactured or processed solid material discarded, disposed of or abandoned into the marine and coastal environment. It is a growing cause of concern for the degradation of the marine and coastal ecosystems, potentially endangering the functionality of the ecosystem itself and reducing the quality of coastal waters for fishing and tourism. Sea cross-border issues due to their cross-border effects require common approaches from different countries and their joint efforts. Within the ML-REPAIR project, activities have been carried out in Croatia and Italy, and the main focus of the project was to involve the target groups – fishermen and fishing associations/cooperatives, local communities and the younger population, the tourism sector, public administration bodies and the FLAG – (Fisheries Local Action Groups in Croatia and Italy) and LAGs (Local Action Groups). The project leader was Ca' Foscari University of Venice, and partners were the Italian National Institute for Environmental Protection and Research (ISPRA), the cooperatives M.A.R.E. and LIMOSA for Italy and the Institute of Oceanography and Fisheries (IZOR), Public Institution RERA S.D. for the coordination and development of the Split-Dalmatia County and the Association for Nature, Environment and Sustainable Development (Sunce), for Croatia.

# 1.2 WP 3 - raising awareness and knowledge transfer about marine litter issues to target groups

The objective of the WP3 was to capitalize the DeFishGear project (DFG) by educating and raising awareness on marine litter problems and solutions within main target groups that are both sources of the problem and affected by the problem – local communities, tourists, fishermen. A comprehensive cross-border campaign was developed and implemented by a series of tools and activities such as exhibitions, workshops, video, posters, leaflets and work with the media. The campaign was built on WP2 communication strategy. WP3 activities have been coordinated and implemented by Croatian and Italian partners PP6 Sunce and PP3 Limosa experienced in environmental education and awareness-raising. PP1 ISPRA, PP4 IZOR and PP2 MARE implemented activity 3.4 especially targeted to fishermen. Other partners were involved by providing inputs on main DFG documents, recommendations and other outputs that needed to be communicated. They also provided inputs and feedback on educational and awareness rising messages; support in identifying contacts, distribution channels and participated in some of the WP3 events (exhibition openings, work with the media). All partners provided support in distributing produced material through their social networks, internet pages and networks of contacts, therefore

increasing visibility, relevance, impact and ownership over project deliverables and outputs. Main outputs have been used by institutional representatives of target groups (schools, museums, tourism agencies, marinas, fishermen cooperatives, media, relevant ministries and agencies, etc.), as well as by partners. Target groups representatives have been consulted at the very early stage of producing educational and communication material and activities to have deliverables that were relevant for each specific target group and could be easily distributed/implemented.

# 2 ACTIVITY 3.3. - MARINE LITTER AWARENESS RAISING CAMPAIGN FOR TOURISTS

# 2.1 Activity description

The campaign was focused on raising awareness of tourists visiting the cross border area on their contribution to the marine litter issue and how they can help to solve it. It was built based on the communication strategy developed in WP2. Communication material was produced with short and easy to understand messages and distributed on points most frequently visited by tourists, such as beaches, ports, ferries, marinas, tourism agencies, bus/train stops. One unique cross border campaign was designed taking into account the specificities of each country, primarily in terms of identifying the most appropriate communication channels and tools to be used. In order to reach a wider audience and promote reduce/reuse/recycle principle, we put focus on using as much as possible useful gadgets that are less likely to be thrown away and digital tools instead of paper communication tools. In collaboration with marketing experts, innovative approaches were explored and already set advertising spaces were used.

# 2.2 Achievement of Deliverable 3.3.4.(3.3.4. Minimum 40 short articles on marine litter issues in tourism related magazines, TV and radio shows (20 in Italy and 20 in Croatia):

Through ML-REPAIR project Sunce had many press appearances from the start which is the Let's beach about it! campaign on the Split promenade. At that occasion Croatian national TV came and took statements from all Croatian PP's and it was shown on the very popular TV show "More" (literally translated "Sea"). After that, we had many appearances on other TV shows, articles in tourism-related magazines and radio shows (National Croatian TV (HRT), TV Jadran, TV Mreža etc.; newspapers/magazines - Yachts magazine, Slobodna Dalmacija, 24 sata, Novi list etc.; portals - Makarska post, Morski.hr, Dalmatian Portal, Infozona, La voce del popolo etc.; radio stations – HRT radio, Radio Dalmacija, Radio Brač, Radio Ultra, Radio Sunce, Radio Hvar, Radio Korcula, Dalmatinski radio etc.). Some of the articles can be seen in Figures 1-3. In total, we had 147 articles in on marine litter issues in tourism-related magazines, TV and radio shows.

In Italy, there was also a wide media coverage. Some to be mentioned are:

Limosa: 1 short article, 2 press releases, 20 posts on Facebook SlowVenice, 10 posts on Facebook Limosa, 20 posts on Twitter, 2 posts on Instagram. M.A.R.E.: 17 articles in newspapers or portals

(newspapers/magazines - Corriere Adriatico, Corriere Romagna, Resto del Carlino etc.; portals - Chiamamicittà.it, altarimini.it etc.). Also there were more than 30 Facebook posts about different activities that M.A.R.E. was performing during the project.

ISPRA staff was interviewed and presented ML-REPAIR project activities and results in 3 radio broadcasts and 1 TV newscast (Figure 1).

Figure 1 - Screenshots of the web pages of the podcast "Radio di Bordo" and the streaming of the newscast broadcasted on the regional TV RAI3

Given the difficulties encountered by Italian partners in finding out touristic magazines for the publication of short articles regarding the problem of marine litter, it was proposed to JS to integrate the deliverable and produce also a list of Best Practices to reduce Marine Litter in the Adriatic printed in a stand-up panel to be shown on the reception desk of various coastal tourist accommodation facilities (hotels, B&Bs, campsites, etc.) starting from the end of July. ISPRA (PP1) and Limosa (PP3), in collaboration with Tourism Associations' Consortia, identified around 200 structures in the area of Chioggia and Venice able to ensure strong dissemination of the message within the target group (estimated 500.000 tourists reached). The integration, considered by the JS as a mere adjustment of the work plan with a strong impact on the tourism sector, was approved on the 31st of May 2019.

Consequently, a list of best practices (ML-REPAIR Best Practice List, BPL) for the prevention of marine pollution - especially conceived for tourists - has been elaborated by the ISPRA staff with the collaboration of Limosa in English and Italian (Figure 2 and Figure 3). The BPL was printed in the form of a desk display and placed in tourists facilities' receptions (B&B, Hotels, campings, etc.). The file was made available for all partners for wider dissemination.

Figure 2 - Best Practice List to prevent marine litter in the Adriatic Sea distributed to touristic operators along the north-western Adriatic coast targeting tourists (English version)

Figure 3 - Best Practice List to prevent marine litter in the Adriatic Sea distributed to touristic operators along the north-western Adriatic coast targeting tourists (English version)

On 9 August 2019 ISPRA, together with the Municipality of Chioggia, organized a public event where the initiative "All together for a cleaner Adriatic" was presented to touristic operators (e.g. owners of hotels, restaurants, bathhouses, etc.) (Figure 4) and 200 BPL boards were delivered to touristic operators from Chioggia and nearby beaches (Figure 5, Figure 6).

Arredi e dehors

# Luce in casa con motore a gasolio Soccorsi padre e figlio intossicati

Vivevano senza elettricità a Rio Salso, trasferiti d'urgenza in camera iperbarica

# L'EMERGENZA

TAVULLIA Vivono senza corrente elettrica in casa e per accen-dere la luce o usare elettrodomestici utilizzano un gruppo elettrogeno a gasolio. Lo ave-vano posizionato in garage ma non avevano fatto i conti il mo-nossido, nemico silenzioso, che riesce a passare attraverso le pareti e ad avvolgerti, senza dartelo a vedere, come il più velenoso dei serpenti. Due ma-cedoni, residenti nella campa-gna di Rio Salso, comune di Ta-vullia, sono stati salvati ieri notte nella camera lperbarica Adriatica di Fano. Il resto della famiglia, per fortuna, non era presente: era in Macedonia per un matrimonio. non avevano fatto i conti il mo

# Gruppo elettrogeno acceso

L'intervento è avvenuto tra lunedì e martedì. I due, padre di 44 anni e figlio di 23, entrambi muratori, sono stati soccorsi poco dopo l'una dal personale medico del 118 dell'ospedale di Pesaro, chiamato sul posto.

# Il pericolo

# Si fanno selfie sui binari segnalati quattro ragazzi

MISANO Gli agenti del corpo intercomunale di Polizia Municipale di Riccione, Misano e Coriano sono intervenuti alla stazione di Misano identificando e allontanati quattro Misano identificando e allontanati quattro ragazzi, poco più che maggiorenni, ches i stavano scattando dei selfie seduti sui binari della ferrovia, prima del transito sul loro bina di un Frecciabianca diretto verso sud. Illoro comportamento è stato segnalato alla Polfer.

nuta a piano terra, avevano procurato loro una grave in-tossicazione. Per questo moti-vo, nonostante le difficoltà logistiche, sono stati prontamente portati al pronto soccorso dell'Ospedale di Pesaro. I medici, constate le condizioni, han-no però deciso di trasferirli ur-gentemente al Centro Iperbari-

Verso la mezzanotte le esala-zioni della combustione, avve-nuta a piano terra, avevano Dopo circa due ore di trattamento in camera iperbarica, i due uomini hanno recuperato un quadro clinico normale e, intorno alle 6 di mattina, sono stati riportati in ospedale a Pesaro, fuori pericolo, per gli ulti-mi accertamenti. La loro abitazione, per quanto vecchia e per quanto è dato sapere, è do-

tata comunque di un impianto elettrico funzionante ma le condizioni economiche precarie li avrebbero portati a ricor-rere a un vecchio gruppo elettrogeno. Un modo per campa re, spendendo solo quello che si può: una tanica di gasolio per vedere di notte o cucinare. Per poter vivere. Gianluca Murgia

# a Morciano, Ciotti "sconta" anche i privati Incentivi a chi fa impresa e investe nel decoro urbano IL REGOLAMENTO

MORCIANO Più incentivi a chi fa bano. Il nuovo regolamento per la concessione di contributi a fondo perduto, presentato dalla giunta del sindaco Giorgio Ciotti e approvato giovedi scorso dal Consiglio comunale, prevede infatti contributi economici o tasse scontante per i cittadini o le attività che contribuiscono al decoro e alla qualità urbana di Morciano. Il regolamento, caso abbastanza unico nel panorama italiano, è rivolto sia al privaticitadimi che alle imprese regolarmente operanti sul territorio morcianese. «In questo modo spiega la giunta comunale – abiamo voluto offirre un premio a tutti coloro che contribuiscono al decoro e alla qualità urbana di Morciano. Pensiamo al tema del colore o degli arredi, ma anche a quello dei debors, già particolarmente diffusi in altri Comuni della nostra provincia. Crediamo che i dehors siano una risorsa economica importante per tutti gli esercenti, purché essi vadano ad armonizzar-si in maniera funzionale e non invasiva con lo spazio urbano della città».

Come funziona bano. Il nuovo regolamento per la concessione di contributi a

# «Con PlasticaMente si riflette sui rifiuti marini»

Elena Piccioni, Coop Mare spiega la mostra itinerante all'acquario di Cattolica

# L'INTERVISTA

CATTOLICA L'Adriatico è un mare ricco di vita ma i rifiuti rischiano di comprometterlo. Dalle indagini effettuate durante il progetto DeFishGear, risul-ta che una percentuale variabi-le tra il 33 e il 39% dei rifiuti trole tra il 33 e il 39% dei rifiuti tro-vati in spiaggia, superficie del mare e fondali, proviene da turi-smo, attività ricreative, traspor-to merci e passeggeri, pesca sportiva, commerciale e acqua-coltura. Per cercare di sensibi-lizzare le persone su questo pro-blema, è stata organizzata "Pla-sticaMente", mostra titneratica (prossima tappa, Molfetta), alle-stita all'acquario di Cattolica. Fa parte di un progetto internazioparte di un progetto internazionale denominato MarineLitter-Repair e proseguir à fino al 4 agosto. A conclusione di questo evento, il 3 agosto, nella spiag-gia libera di fronte al Circolo di plastica nella mostra allestita all'acquario di Cattolica finoal3

rini. Al suo interno ci sono giochi interattivi e pannelli didatti-ci per cercare di sensibilizzare il pubblico e offrire nuovi spunti di riflessione sul rapporto tra

te nell'organizzazione?

«La mostra è stata organizzata
dalla Cooperativa Mare di Cattolica, uno dei partner italiani
del progetto europeo "Mi-Repair". L'idea, tuttavia, nasce dalla collaborazione di tutti i parterd i progetto tra cui l'Università Ca Foscari Venezia, l'Istituto superiore per la protezione e to superiore per la protezione e la ricerca ambientale, la Coope-rativa Limosa e altri tre partner croati. Si tratta di un progetto Italia-Croazia».

Che cosa vi aspettate da que-

«Speriamo che a questa mostra possano partecipare molte per-sone, non solo turisti ma anche la comunità locale. Questo pro-getto inoltre prevede una serie di attività in collaborazione con i pessatori i quali contribuiran-i i quali contribuirani pescatori, i quali contribuiran-no a rimuovere e a smaltire in modo appropriato i rifiuti marini che pescano durante il loro

# Questi laboratori continueranno dopo il 4 agosto?

«A novembre ci saranno anche «A novembre ci saranno anche delle attività nelle scuole elementari e medie per sensibilizzare i più giovani e, infine, organizzeremo una giornata di beach cleaning (pulizia spiaggiaone, Divulgazione, quindi, Sono gli obiettivi principali del progetto». La mostra verrà riproposta anche l'anno prossimo? «Purtroppo no, anche se sarebbe stato bello e soprattutto diattico, organizzare tutte quedattico, organizzare tutte que

Nicola Luccarelli

Come funziona
Il fondo è destinato a sostenere
le spese per i seguenti interventi: adeguamento al piano del colore del centro storico; realizzazione di elementi di arredo urbano esterni all'esercizio; adeguamento o realizzazione di dehors; sostituzione di insegne od
i altri impianti pubblicitari. Il
privato che intende realizzare
uno o più delle opere sopra elencate, potrà presentare domanda
i ammissione al contributo secondo le modalità previste dal
amdo di prossima pubblicazione. Il termine per la presentazione delle istanze scadrà il 15 ottoper possimo. In cambio i privaper prossimo. In cambio i privane delle istanze scadrà il I5 otto-bre prossimo. In cambio i priva-ti potranno ottenere un contri-buto economico per un importo comunque non superiore al 50% delle spese rendicontate e ad ogni modo per un valore non superiore al 5mila euro. Nel ca-so di attività economiche (bar, ristoranti compercianti e arti-ristoranti compercianti e artiristoranti, commercianti e arti-giani), il contributo potrà essere elargito anche sotto forma di riduzione dei tributi locali (Tari e Cosap) sulla base di una co zione che non potrà avere dura-ta superiore ai 5 anni.
