

# **MOSES Project– “Maritime and multimodal transport Services based on Ea Sea-way project”**

**3rd Public Event (Final Conference)  
September 18th, 2019 – Trieste**

**FOLLOW-UP REPORT**

The 3rd public event of MOSES project has been organized by the Friuli Venezia Giulia Region, Central Directorate for infrastructures and territory, as project Lead Partner in Trieste on September 18th, 2019.

The event took place by the premises of the Savoia Excelsior Palace Hotel Trieste (Riva del Mandracchio 4).

The LP indeed coordinated and supervised the organization of the Final Conference which has been entitled “Solutions for a sustainable cross-border mobility between Italy and Croatia: the contribution of MOSES project”.

To better highlight its purposes it has been inserted among the program of the European Mobility Week 2019 organized and promoted jointly with the Municipality of Trieste.

The welcome address has been reserved to the Municipal Minister for the Territory, Urban Planning and Environment of the Municipality of Trieste, which has been followed by the opening session held by Mr. Grancarić, Project Manager of the Joint Secretariat of the Interreg V-A Italy-Croatia 2014-2020 Programme.

A first session has been dedicated then to pilot projects and to case studies implemented. In this occasion the institutional framework and the project results achieved have been presented and analyzed thanks to the contributions of Italian and Croatian representatives and project managers of the project partnerships.

Consequently, during the second session, the round table “Maritime Passenger Transport Services promoting Multimodality and Environmental Sustainability in the Cross-Border Area: Criticalities and Perspectives” has been launched. Several points have been discussed under the moderation of Mr. Stocchetti of the Center for Automotive and Mobility Innovation of the Department of Management of the Ca’Foscari University of Venice; among these the increasing need of coordination for always better sustainable transport connection services in the cross-border area between Italy and Croatia.

Reflecting the composition of the project target groups, relevant actors of the round table represented both public institutions and transport operators. Worth to be mentioned are the Port Authority of Mali Lošinj, the Port Authority of Pula, the Fondazione ITL-Istituto sui Trasporti e la Logisitca, the Mobility Service and the Territory Government of Molise Region, the Libery Lines S.p.A and the Primorsko Goranska Županija.
