Step-Up project is in Rector's Palace/Kneževa palača - Zadar, Croatia. ⋮

Published by Stipe Španja (?) · October 29, 2018 ·

On 25th of October 2018 a dissemination event was held in Zadar, as part of the STEP-UP project. The host of the event was Zadar Airport as one of the project partners. After introductory presentation about project activities, a panel discussion on intermodal transport and info-mobility services was held.

The moderator was dr.sc. Dino Županović from the University of Zadar, and the participants were the following:

- Martin Bučan – County of Split-Dalmatia
- dipl. oec. Đoni ... [See More](#)

Step-Up project is with Stipe Španja in Rector's Palace/Kneževa palača - Zadar, Croatia.
Published by Stipe Španja [?] · October 29, 2018 ·

II Steering Committee Meeting for STEP-UP project was held in Zadar on 25th of October 2018. After welcoming speech from the Zadar Airport, project partners held a presentation about work packages for which implementation they are responsible for. In the end, main conclusions about project implementation and next steps were made.

Step-Up project is at Napredak-Zagreb.
Published by Stipe Španja (?) · December 7, 2018 · Zagreb · 🌐

This week, City of Šibenik participated on a public event in Zagreb on the theme of sustainable urban mobility. The event was attended by cities, municipalities, counties and other public institutions from Croatia as well as from other neighbouring countries. The City of Šibenik used this opportunity to promote STEP-UP as one of the projects that will improve the mobility of passengers in Italy and Croatia. Participants met the goals and purpose of the project and also shared our promotional gadgets.

Marche Region, our Lead Partner, has an excellent geographic position. It extends between Emilia-Romagna on the north, Tuscany and Umbria on the west, Lazio and Abruzzo on the south and Adriatic Sea on the east. Because of this the Region aims to become a strategic starting point for travel across Europe.

Concerning the beauty shown in this video, we do not doubt that.

Friuli Venezia Giulia

Una piattaforma online per viaggiare “sostenibile”

Lo strumento consentirà di organizzare al meglio gli spostamenti fra Italia e Croazia, dai ticket alle bici a noleggio. L'Università di Trieste nel progetto europeo

Lilla Goriup

TRIESTE. L'Università di Trieste è tra i protagonisti della cooperazione transfrontaliera tra Italia e Croazia per l'implementazione della mobilità sostenibile nel rispetto dell'ambiente. Nell'ambito del progetto europeo Step-up l'ateneo sta infatti lavorando alla realizzazione di una piattaforma online, a disposizione di cittadine e di turisti da fine estate, finalizzata all'integrazione dei servizi di trasporto tra i due Stati affacciati sull'Adriatico. Di questo e altri temi si parlerà martedì, durante la conferenza "Nuovi scenari sulla mobilità multi-modale. Info mobilità per un flusso passeggeri sostenibile tra Italia e Croazia", organizzata dal Dipartimento di Ingegneria e Architettura dell'Uni-

getto "Sustainable transport e planner to upgrade the It-Cr mobility", abbreviato appunto in Step-up. Si tratta di un progetto europeo dell'ambito interreg Italia-Croazia, che mira ad agevolare la mobilità multi-modale dei passeggeri nell'area pres- in considerazione

Ciò avverrà attraverso servizi ICT e di multimodalità.

L'obiettivo finale è la realizzazione di un Travel planner, ossia una piattaforma web messa a disposizione di cittadini e turisti, che permetta di integrare servizi e modalità di trasporto tra i territori dei due Paesi, nel rispetto della sostenibilità. Spiega il professore Walter Ukovich, del Dipartimento di Ingegneria e Architettura: «In altre parole, si vogliono mettere a disposizione del pubblico elementi utili al fine di organizzare i propri spostamenti. Si pensi all'esempio del turista che, uscito dalla porta di casa, prende un taxi per la stazione. Una volta giunto a destinazione salirà a bordo di un traghetto e, quando si troverà sull'altra sponda dell'Adriatico, viaggerà su un pullman oppure di una bicicletta a noleggio per esplorare i dintorni. La piattaforma che sarà operativa da settembre, servirà a coordinare gli orari, verificare la possibilità di acquistare biglietti online o in forma di pacchetti turistici multiple e servizi».

All'appuntamento di martedì (dalle 9 alle 17) l'Università di Trieste ospiterà in un'aula del Dipartimento di Ingegneria e Architettura una conferenza, che si terrà in inglese come lingua ufficiale del progetto, e gratuita registrandosi entro domani (step-up new seminar event) o anche scrivendo a step-up@uniroma1.it.

Il step-up training). Si potrà anche partecipare in streaming. La giornata è la prima di tre occasioni formative, tutte aperte al pubblico. L'Università di Trieste è uno dei tre partner italiani con la Regione Emilia Romagna e il Comune di Lecce; quelli croati sono l'Università di Spalato-Dalmazia, Città di Sebenico e Aeroporti di Zara. Capofila la Regione Marche.

SULLA RETE

Rifiuti in A1 un conto salato per Autovie

Sono circa 300 le tonnellate di rifiuti urbani non differenziati ogni anno conferiti (o abbandonati) dagli utenti sull'autostrada gestita da Autovie Venete: sull'intera rete il dato è pari a una tonnellata di scarti raccolti l'anno per ogni km di autostrada. Rifiuti lasciati in cestini o gettati da veicoli in transito abbandonati. La raccolta rifiuti abbandonati peserà su Autovie 800 mila euro nel triennio 2019-2021, più 200 mila per la raccolta lungo le scarpate. Autovie incrementerà in estate i giri di raccolta.

Il seminario intende pro-

Starting tomorrow, Emilia-Romagna Region will launch its pilot project "La Linea dei Borghi". The project will connect two ancient villages of Verucchio and San Leo with the Rimini railway station every week thanks to shuttle buses that will drive tourists and visitors to these points of interest. This service aims to allow a greater number of people to easily visit the two historic centers without the need for a car thus radically reducing CO2 emissions and traffic jams.
