1. INTRODUCTION

The submission of applications in the frame of Italy-Croatia CBC Programme through the SIU Management and Monitoring System is fully computerized. For a complete de-materialization of the submission process it is suggested to use whenever possible the digital signature for subscribing the application and the declarations; if not, the user shall nevertheless register all data into SIU and the System will then generate the Application Form that needs to be printed, signed and uploaded on the system. Likewise, all prescribed annexes have to be uploaded (as electronic documents or scanned paper documents) in the system before AF submission.

This Manual contains key technical information on the operation and use of the system for supporting the applicant during the filling in and submission process of the project proposals. Only Lead Applicants shall register and access SIU to draft and submit proposals under the Italy Croatia CBC Programme.

The application process consists of the following main phases:

Preliminary phase: – Registration on GUSI to obtain accreditation to access SIU

Operational phase for the registration of users. To access SIU a preliminary accreditation on GUSI (Information System Users Management) is needed.

A dedicated supporting Manual for the registration on GUSI is available and downloadable at the following link: http://www.italy-croatia.eu/sites/default/files/js/GUSI_User_Manual_ITHR.pdf

1st Phase – Access to SIU

Operational phase to access SIU System and start a new application.

2nd Phase - Data entry/filling in the Application Form in SIU

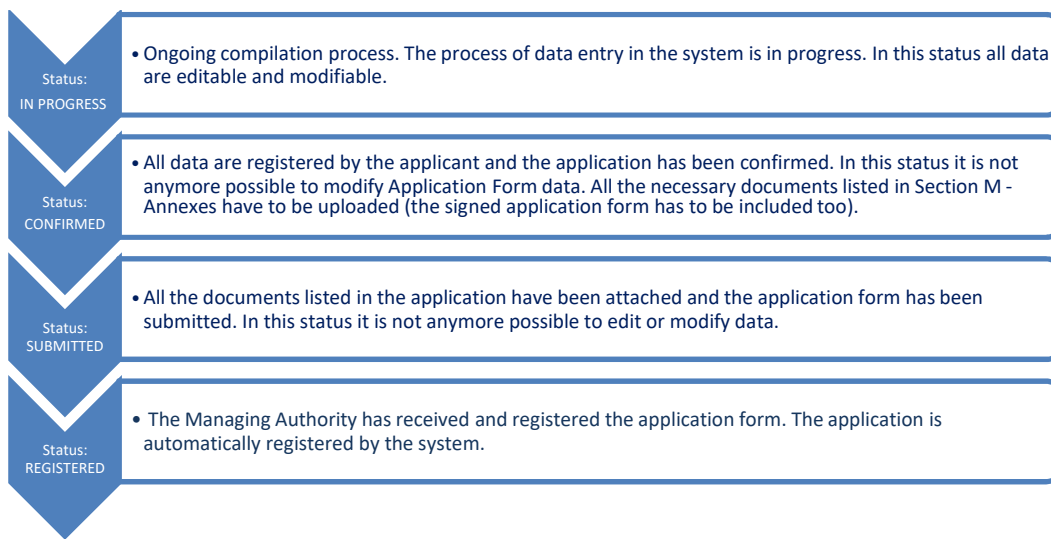

Operational phase including the application filling in phase and the application confirmation.

3rd Phase - Submission

Operational phase including the upload of annexes, the application form signature (digital or not) and the application form submission.

This Manual is intended to provide guidance to applicants through the whole process from starting a new application to submission (1st to 3rd Phase).

During these phases the application takes different status (see the figure below):

In the following paragraphs of the Manual the functioning of the System is described and it is also explained how to access the system, complete and submit the Application.

2. SIU STANDARD FUNCTIONS AND TOOLS

In the following paragraphs the Manual describes the common functions and tools used by SIU.

2.1 PANELS

General layout

SIU uses a single browser window to display the pages (the same solution generally adopted for web navigation).

The browser window is divided into three parts (sections):

Header:

The Header section is located at the top of the browser window. It contains the logo of the Programme and it allows the user to exit the application.

Countdown of Session timeout is also displayed on the header indicating the remaining time for the user to fill in the current Session before it expires. In case of users' inactivity of more than 30:00 minutes the Session expires and the user will have to log in again to continue filling in its Application Form.

The user can click the button called “Extend session” **to reset the timing countdown**. Each time the user is pressing this button the 30 minutes countdown will restart.

Menu:

The Menu section is located under the Header section of the browser window. It contains links to the general functions of the application. The user can select the function clicking on the corresponding title with the left mouse button. The content of the section changes in a dynamic way (depending on the active function).

Main:

The Main section is located below the Menu section and displays many functions of the application. This section shows the following information:

- Position of the displayed function;
- Title of the displayed function;
- System messages;
- Data;
- Buttons.

The screenshot shows the SIU Management and Monitoring System interface. At the top, there is a navigation bar with 'Applications' and 'Help' tabs, and buttons for 'NEW REQUEST', 'SEARCH', and 'DELETE REQUEST'. The SIU Veneto logo (2014-2020) is on the left, and the Interreg Italy-Croatia logo is on the right. Below the navigation bar, the 'Search' section is active. It includes a 'Select programme' dropdown menu set to 'Italy-Croatia CBC Programme 2014-2020'. Under 'Search criteria', there are input fields for 'Application code', 'Tax number', 'Name', 'Type of request', 'Priority axis', 'Call for proposals', 'VAT number', 'Request status', and 'Specific objective'. A 'Search' button is located below these fields. The results section shows 'Results: 0' and a table with columns: 'Application code', 'Call for proposals', 'Priority axis', 'Specific objective', 'Tax number', 'VAT number', 'Name', 'Type of request', 'Status', and 'Submission date'. The table currently contains 'No results'.

2.2 GRAPHICS

Used graphics could be classified as below:

Link

It looks like a part of text that becomes underlined if the user moves the mouse on it. It represents a link between two functions and allows navigating.

Please see below a normal link on left side and a link stressed by the mouse on the right side

Button

When the user presses the button (by clicking on it), the corresponding operation will be carried out. The buttons are identified by an icon with some written text on it (see an example below)

Radio button

It is a graphic object useful to select a single value of a limited number of predefined elements. To select the value the correspondent round field has to be clicked

Values list

It is an object with a related values list. This associated list of values will be displayed by clicking the grey little square on the right side of the element. Only one list item could be entered or displayed. See example below

Field

It is an element containing free text. Sometimes detailed data format are required (i.e. for a date dd/mm/yyyy and for digits commas like decimal markers and points like thousands separators). In case of editable field, it needs to click on the element with the mouse in order to

position the cursor and start to insert data

Check box

It is a graphic object with a boolean function related (only two options). It is possible to switch between the values clicking the grey little square on the right side of the element (clicking again the inserted value will be unchecked)

2.3 LISTS DISPLAY

Lists display is a table where data referred to different objects are displayed. A data set related to a single object considered into a table is called “Record”. Records can be displayed one by one (single-record fields) or they can be organized and displayed all together in a list (multi-record fields).

The screenshot shows the SIU Management and Monitoring System interface. At the top, there are navigation links: 'NEW REQUEST', 'SEARCH', and 'DELETE REQUEST'. The 'SEARCH' link is active. Below the navigation, there is a search form with a dropdown menu for 'Programme' set to 'Italy-Croatia CBC Programme 2014-2020'. Under 'Search criteria', there are several input fields: 'Application ID', 'Personal tax number', 'Lead applicant name', 'Type of request', 'Priority axis', 'Call for proposals', 'VAT number', 'Request status', and 'Specific objective'. A 'Search' button is located below the criteria fields. Below the search form, it says 'Results: 8'. A table displays the search results with columns: Application code, Call for proposals, Priority axis, Specific objective, Personal tax number, VAT number, Lead applicant name, Type of request, Request status, Submission date, and a 'Detail' link for each row.

Application code	Call for proposals	Priority axis	Specific objective	Personal tax number	VAT number	Lead applicant name	Type of request	Request status	Submission date	Detail
10038101	2017 Standard+	2	2.1				Application	In progress		Detail
10038521	2017 Standard+	3	3.1				Application	In progress		Detail
10039781	2017 Standard+	2	2.2				Application	Confirmed		Detail
10039926	2017 Standard+	2					Application	In progress		Detail
10039935	2017 Standard+	1					Application	In progress		Detail
10039962	2017 Standard+	2					Application	In progress		Detail
10039963	2017 Standard+	3					Application	In progress		Detail
10040165	2017 Standard+	2					Application	In progress		Detail

2.4 STANDARD BUTTONS

SIU uses a series of buttons with the same meaning in all functions:

- Back  It allows to return to the previously displayed page
- Add / New  It allows to create a new record
- Confirm  It allows to confirm that data entered have been seen
- Change / Update  It allows to modify the displayed data
- View  It allows to view the data saved in the database
- Save  It allows to save the data entered
- Delete  It allows to delete the entered data
- CSV export  It allows to extract the data in CSV format
- Details / Other data / Activity list  It allows to open a window with further details
- Section  It allows to go to the section list window
- Info  It includes information related to the displayed fields

2.5 FIELD FORMAT

By convention, the date type fields have the following format: **DD/MM/YYYY**, where DD is the day (number 1 to 31), MM is the month (number from 1 to 12), and YYYY is the year (extended to 4 digits). In case of single digit month or day, it will be necessary to put a zero in front of it (for example, 01/01/2000 and not 1/1/2000).

Numeric fields have the following format: **NNNNN,DDDD**, where N means integer, D means decimal and comma means separator. SIU does not accept the point as decimal separator.

With reference to the various input fields, please see below an overview on the characters accepted by the system.

Type of field	Letter and numbers	Special characters
Generic Alphanumeric	A-Z 0-9	_(underscore)
Generic Alphanumeric to be inserted in fields dedicated to search	A-Z 0-9	_(underscore) *(asterisk)
Alphabetical fields (first name, last name,...)	A-Z ÀÈÉÌÒÙ	' (single quotation mark)
Fields where to insert Address, Business name ("Ragione sociale")	A-Z 0-9	_(underscore) .(dot) , (comma) -(minus) ' (single quotation mark)
E-mails	A-Z 0-9	.(dot) @
Phone numbers	0-9	/(backslash)

		. (dot) + (plus)
Chamber of commerce registration numbers	0-9	-(minus) _(underscore)

In the case that different characters are entered, the system will inform the user that the used digits are not allowed and as a consequence it is not possible to save data. In particular the user has to pay attention that diacritical marks could be not recognized by the system, in that case word without diacritical marks have to be inserted. Moreover, if the user copy paste from a .doc or .docx file, it could happen that words with accent are not recognized by the system, so it is advisable to paste the text in a .txt file before pasting it in the online application form. If the user is copy pasting from a .pdf file has to pay attention that the system counts the spaces between a paragraph and another one as characters so you have to check that the length of the text respects the maximum number of characters allowed for the field to be filled in.

2.6 SEARCH SETTING

In the search function it is possible to use more than one search criteria at the same time. Many text fields allow the user to search not just by entering the entire value/text but also a part. In this case please remember to use the symbol "*" for the missing part. This method only applies to text fields. For example to search the company "ROSSI MARIO SpA" through the company name search criteria, it is possible to operate in many different ways:

- By writing "MARI*" in the field referred to the company name; in this case the system will carry out all companies with names that begin with "MARI", i.e. "MARINA VERDE SRL";
- By writing "*OSSI SpA" in the field referred to the company name; in this case the system will carry out all companies with names that end with "OSSI SpA", i.e. "FRATELLI ROSSI SpA" or "DITTA GIALLOROSSI SpA";
- By writing "*ROS*" in the field referred to the company name; in this case the system will carry out all companies with names that contain "ROS", e.i. "MARCO ROSSI SpA" or "FRATELLI ROSSINI".

2.7 SYSTEM MESSAGE MANAGEMENT

The system messages are displayed in the upper part of the main frame. There are two types of messages:

- Error messages
These types of messages block the work in progress. They appear when the user saves or moves on to a new window and any compulsory fields are not yet valued or are inconsistent. These messages are displayed in red font;
- Warning messages
These types of messages do not block the work in progress.

Message “Done” appears in the System to confirm a given action of the user (such as to confirm the saving of inserted data after having pressed “Save” button).

It is recommended to copy-paste text from an off-line document (such as the Off-line AF Template) into the related field in SIU in order to speed up the filling in procedure.

Data inserted in SIU can be modified as long as the Status of the Application is in Progress. In fact once the Application is confirmed data can no longer be modified and only the Annexes can be uploaded in the System.

3. ACCESS TO SIU

3.1 How to Access SIU

To proceed with the submission of the application, the applicant has to be previously accredited on GUSI (Information System Users Management). For further information please refer to GUSI Manual.

SIU is a web application which can be accessed with recent versions of most common browsers (e.g.: Chrome, Firefox, Internet Explorer). It is advisable to use Chrome or Firefox.

SIU is available by selecting the appropriate link:

<http://siu.regione.veneto.it/DomandePRU/?tipoProgramma=INTERREG%20VA%20I THR>

The user can log in SIU by inserting user ID and password in the System access page (see following preview). User ID has to be typed in the specific box “USER”.

REGIONE DEL VENETO Regione del Veneto

CAS Central Autentication Service

Login

To access at the service the authentication by user and password is required

User 

Password 

Information

Call Center can be contacted for any application problem, including the password reset, in one of the following ways:

- by calling **hotline +39 800.914.708** (external) or **number 919.000** (internal)
- by sending a **fax +39 800.916.074** (external) or **Fax 918 000** (internal)
- by sending an email to: call.center@regione.veneto.it

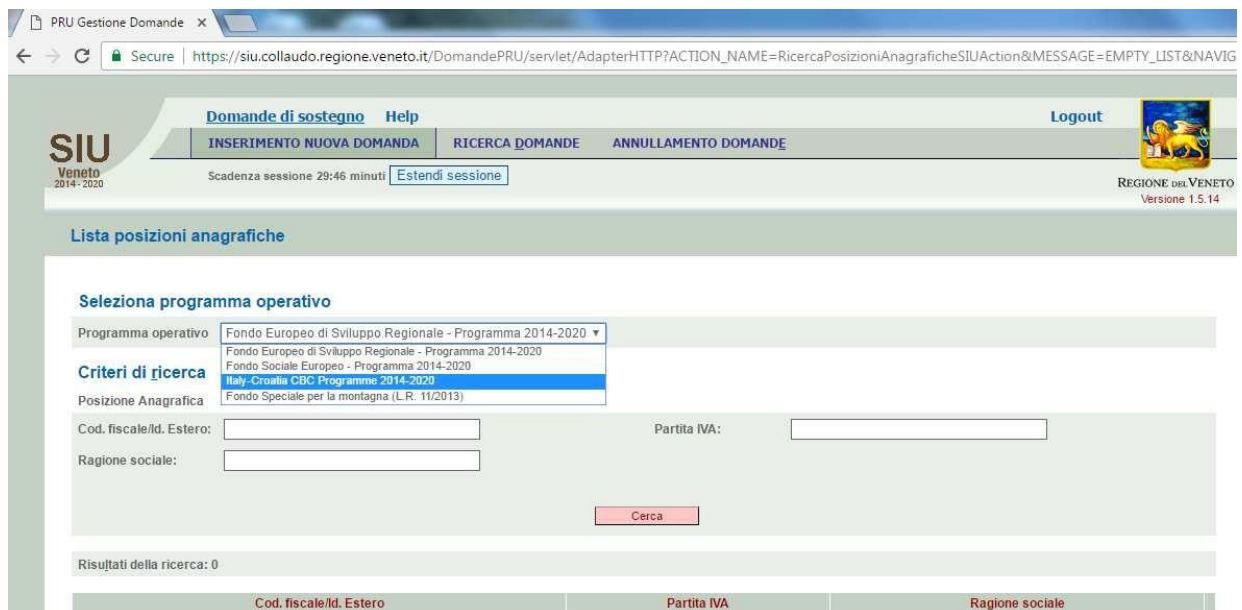

Password recovery mechanism is based on sending of an e-mail to the user's address communicated during registration.

REGIONE DEL VENETO Central Autentication Service- Regione del Veneto

Once the applicant has successfully logged in, SIU allows starting the application process.

Please note that all SIU pages and functions dedicated to IT-HR Programme are in English language. However depending on the browser settings in some cases a first general mask can ask a selection on the Programme to deal with. In this case after selected Italy-Croatia CBC Programme 2014-2020 and having clicked “Search” button the SIU pages will be automatically displayed in English.

ONLY IN CASE THE FOLLOWING MASK IS DISPLAYED the user has to select the “Italy-Croatia CBC Programme 2014-2020” from the drop-down menu appearing next to PROGRAMMA OPERATIVO under the heading SELEZIONA PROGRAMMA OPERATIVO, and then click “Search”

Please see below the starting browser window. On top of the window appears a horizontal menu where the applicant can link to the starting functions.

3.2 How to insert a new request (Application)

Select Lead applicant and programme

This function allows the Lead applicant to apply with a project proposal. In order to submit it, it is necessary to select the LP Organisation/Institution by inserting the tax number or the name of the Organisation or VAT Number and click the Search button . Every user entering SIU will be allowed to see only the Organisations which they are authorized to fill-in data for.

By clicking on “NEW REQUEST” it is possible to insert a new project proposal.

The user is requested to select the Lead applicant among the ones that have been previously registered in the GUSI data base. In order to do this the user needs to type either the tax number or the organization name or the VAT Number (only one field needs to be entered) in the dedicated fields under Search criteria (as for instance displayed in the screenshot below) and start the research by clicking on Search button .

Once it has found the requested organisation, the user can generate a new project proposal through the new request button which appears next to the concerned Lead applicant entity main data.

The system will then require to indicate:

- The **type of request** that can be selected. For starting a new project application, select

APPLICATION and click “Continue” button

Continue

- the **Priority axis** from a given menu.

Call for proposals

- the selected **call for proposals**, within the ones active at the moment of application through the SEARCH function

For selecting the call for proposals, the user has to press >> and the system will automatically transfer the selected choice back to the Call for proposal page .

	Code	Description

Filled in column: Sections marked in green contain already some data (nevertheless this does not necessary means that these Sections are complete). While Sections marked in red are completely empty.

Viewed column: Sections marked in green have been visited and viewed by the user while Sections marked in red still need to be viewed. In some cases button Viewed pertaining to a given Section should be appositely clicked.

4. FILLING IN THE APPLICATION

Main recommendations and overview of Sections

Main recommendations are as follows:

- Save regularly in order not to lose data;
- In some cases the system will save data only once the whole section has been duly filled-in.

The application is composed of a number of tables that must be filled in to enable the submission. Also the tables that ask only for visualization must be viewed and confirmed with the button CONFIRM.

The main screen is composed of: a heading with resumed data and some fields that will be automatically compiled during the filling-in process (for example in case of the submission date). The heading presents some resuming data, automatically inserted by the System once the corresponding field is completed in the relevant Section:

Field
Lead Applicant tax number
Lead applicant name
Project Acronym
Priority Axis
Specific Objective
Call for proposals
Request status
Registration number
Submission date

The following Sections have to be duly filled in by clicking on the “Update” button:

Sections	Note
A	Application data
B	Lead Applicant data
C	Legal representative
D	Person in charge of signature
E	Partners
F	Project key data
G	Communication approach
H	Budget general information

I	Project
J	Financial plan
K	Statements
L	Commitments
M	Annexes

Section “N – Errors” does not require any additional data to be entered into the system by the applicant in addition to what is already inserted in the previous sections.

N	Errors
---	--------

Errors can be seen by clicking on the button “View”. Section “M – Error” is helpful to regularly check if the proposal has been correctly inserted or some parts are missing or need revision / an additional check by the Applicant.

The following buttons appear on the right bottom of the screen:

These buttons allow the user to have a full preview of the Application Form (Print draft), to check what inserted in the system, confirm the application form (as a final step) or delete the application form.

The button AF Abstract allows to print and sign the Abstract of the Application Form (AF Abstract) needed in case the Lead applicant has to sign it manually.

For additional information on this issue please refer to chapter 3 below.

On the left bottom of the screen it is possible to return to the previously displayed page by clicking

button.

The Sections have to be filled in in sequence by starting from “Section A - Application data” meaning that Section H – Budget general information can only be filled in after having properly inserted data in the previous sections. The same reasoning applies for instance to “Section F – Project key data” that can only be properly filled in once the previous sections have been duly completed. Section “I – Project” is the one containing the bulk of information concerning project activities and their related cost.

(*) compulsory field

The Applicant has to complete the following boxes:

Lead applicant other data	Note
If in "Type of body" you selected "Public/Body Governed by PL", please specify your status :	In case the Lead Applicant is a Public body or a body governed by Public law the system requires to specify its status by choosing among one of these two options through the drop-down menu: <ul style="list-style-type: none"> - Public; - Body governed by public law (Directive 2014/24/UE).
Assimilated partner:	If applicable tick "v".

Reasons to be considered Assimilated:	Insert the Assimilated partner description. This box should be completed only if the previous box (Assimilated partner) has been ticked.
Partner category	Choose among the available options from the drop-down
Associated partner	If applicable tick “v”.
PP who reports the expenses of associated partner:	Choose among the available options from the drop-down
Reason to be considered associated	Insert the Associated partner description. This box should be completed only if the previous box (Associated partner) has been ticked.
National co-financing	Choose among the available options from the drop-down
National co-financing description (*):	Describe the source of co-financing.
De minimis aid:	Choose among the available options from the drop-down
Specify the reason for the presence of de minimis aid :	Describe the reason for the presence of de minimis aid
Is VAT recoverable? :	Choose among the available options from the drop-down menu: Yes/No/Partially.
Details on VAT recovery (*):	Describe VAT status (further guidance is given in Factsheet n. 4).
Competence (*):	Describe the competence – further guidance is given in Factsheet n. 4
Organisational structure and resources (*):	Describe the organizational structure and resources – guidance on the content is given in Factsheet n. 4
Expertise in EU/International projects (*):	Describe the expertise – guidance on the content is given in Factsheet n. 4
Benefits on participation (*):	Describe the benefits on participation – guidance on the content is given in Factsheet n. 4

(*) compulsory field

Remember to fill in the only the applicable boxes. In case you have ticked Assimilated partner or Associated partner a description is needed.

Once completed remember to save  before moving forward to the next Section using the button . In case some fields are missing or not properly completed, one or more error messages are displayed in red on the top of the page.

Section C – Legal Representative

In Section C the Applicant has to specify if the lead applicant is IT or HR-Other through a drop down menu and search the tax number using  button. Section preview as follows:

The screenshot shows the SIU Management and Monitoring System interface. At the top, there is a navigation bar with 'Applications' and 'Help' tabs, a session timeout of 29:42 minutes, and buttons for 'Extend session' and 'Logout'. The main header includes 'SIU Veneto 2014-2020' on the left and 'Interreg Italy - Croatia' with the European Union flag on the right. Below the header, there are buttons for 'NEW REQUEST', 'SEARCH', and 'DELETE REQUEST'. The main content area displays the 'Search legal representative' section. It includes a form with the following fields: 'Application ID' (10010742 (INTERREG VA ITHR)), 'Name', 'Tax number', and 'Project acronym'. Below these fields, there is a section titled 'Search legal representative' with a dropdown menu for 'The lead applicant is (*)' (set to 'IT') and a text input field for 'Tax number (*)' with a 'Search' button. A note indicates that the tax number field is compulsory. A 'Back' button is located at the bottom left of the form.

[Add new entry](#)

In case the tax number is not found in the database a button [Add new entry](#) is displayed on the right bottom of the page. By clicking this button the following screen preview should appear:

Sections

The legal representative is:

Email (*): Phone (*):

(*) compulsory field

The Applicant has to complete the following boxes:

Legal representative	Note / Required actions
The legal representative is	Already filled.
Personal tax number (*)	Type the Legal representative personal tax number.
First name (*)	Type the first name of the Legal representative
Last name (*)	Type the last name of the Legal representative
[Personal data]	
Gender (*)	Choose among the available options from the drop-down menu: Male or Female.
Date of Birth (*)	Type the date of birth of the Legal representative.
Country	Select the country through "Search" button. Click then on ">>" related to the concerned country to transfer the selection on the previous page. By clicking on "Clean" the selected country will be deleted.

Place of Birth (municipality)	Type the place in the field or select the place of birth through “Search” button. Type the place of birth of use Search button again and click then on “>>” related to the concerned place to transfer the selection on the previous page.
Place of Birth (province)	Filed to be automatically completed by the System on the basis of the selected municipality.
[Residence information]	
Country (*)	Select the country through “Search” button. Click then on “>>” related to the concerned country to transfer the selection on the previous page. By clicking on “Clean” the selected country will be deleted.
Town	Type the name of the town.
Zip code (*)	Type the ZIP code.
Province:	Type the Province.
Address (*)	Type the Address.
In charge of legal representation since (*)	Insert the date.
Email (*)	Insert the e-mail address.
Phone (*)	Insert the phone number.

(*) Compulsory field.

Once completed the user has to press and then buttons.

Section D – Person in charge of signature

Details of the person in charge of signature should be provided **only if the person in charge of signature is different from the Lead applicant legal representative.**

The screenshot shows the 'Person in charge of signature' section of the SIU application form. At the top, there is a navigation bar with 'Applications', 'Help', 'Session timeout 29:50 minutes', 'Extend session', and 'Logout'. Below this is a sub-header 'Person in charge of signature' with 'Info' and 'Sections' buttons. The form contains several fields: 'Application ID' (10010764 (INTERREG VA ITHR)), 'Name', 'Tax number', and 'Project acronym'. The main section is titled 'D - Person in charge of signature' and includes a note: 'Only if different from legal representative'. The fields are: 'The person in charge of signature is (*)' (a drop-down menu with 'IT' selected), 'Tax number (*)', 'Last name (*)', 'First name (*)', and 'Role (*)'. A legend indicates that fields with an asterisk (*) are compulsory. At the bottom, there are 'Back', 'Viewed', and 'Save' buttons.

Fields to be completed are as follows:

Person in charge of signature	Note / Required actions
The person in charge of signature is (*):	Choose among the available options from the drop-down menu: IT or HR-Other
Tax number (*):	Type the tax number
Last name (*):	Type the last name of the person
First name (*):	Type the first name of the person
Role (*)	Type person’s role within the organization.

*compulsory fields.

Once completed remember to press buttons save  and  before moving forward to the next Section using the button .

In case some fields are missing or not properly completed, one or more error messages are displayed in red on the top of the page.

Once all the necessary information related by the Lead Applicant as required by SIU System are

inserted and saved move to the next Section (Section E).

Section E – Partners

Section preview:

Partners need to be added one by one. To add a partner to the project proposal, click “Add” button  . The following screen will then appear:

Under the heading **Partner search** the applicant is requested to:

Partner search	Note
The partner is (*):	Choose among the available options from the drop-down menu: IT or HR-Other
Personal tax number (*):	Type the tax number or use Search button to select it from a given list.

*compulsory field.

If the tax number is not present in the system click “Add new entry” button and proceed to filling in the requested data displayed on the screen:

H – Budget general information

Section H preview:

H - Budget general information Sections

Warning! Save data before changing page.

Does the project opt for staff simplified cost option? (*)

Does the project require office and administration costs? (15% of staff costs)? (*)

Does the project include small scale infrastructures? (*)

Evidence of net revenue (*)

Activities outside the programme area (*)

(*) compulsory field

Warning! Save data before changing page.

The Applicant is requested to provide the following information:

Budget specific information	Note / required action
Does the project opt for staff simplified cost option? (*)	Choose among the available options from the drop-down menu: Yes or No.
Does the project require office and administration costs? (15% of staff costs)? (*)	Choose among the available options from the drop-down menu: Yes or No.
Does the project include small scale infrastructures? (*)	Choose among the available options from the drop-down menu: Yes or No.
Evidence of net revenue (*)	Choose among the available options from the drop-down menu: Yes or No.
Activities outside the Programme area (*)	Choose among the available options from the drop-down menu: Yes or No.

(*) compulsory field.

How to fill in this Section: The Applicant has to select YES/NO with regards to the five questions, provide details concerning the Activities outside the Programme area (if applicable) and **provisionally skip to provide further details concerning Infrastructure and Net revenues as these parts can be properly completed only after information related to Section I are provided (in particular those concerning Work Packages and Project Activities)**. Therefore after having answered YES or NO to the five questions (and provided details on Activities outside the Programme area if YES is selected) the Applicant has to proceed to fill in the subsequent Section I – Project. Once Section I – Project is completed

at least the parts concerning project locations and project workplan) it will be possible to complete information concerning Infrastructure details and Net revenues in Section H. Additional requests on the basis of the information provided concern specific information on the Net revenues, Infrastructure and Activities outside the Programme area.

In case of **Activities outside the Programme area** two more fields will be displayed if the user choose YES from the drop-down menu (i.e.: Brief description and Total ERDF amount estimated related to these Activities):

<input type="button" value="Select province/county"/>	<input type="button" value="Select municipality"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="checkbox"/>

(*) compulsory field

Select Province/country through the apposite button and pick up the Province from the given list by clicking on “>>”. Then click on Select municipality button and pick the municipality from the given list by clicking on “>>”. Next step is to specify address, civic number, zip code and town by typing these data into the appropriate field. Once completed press button.

To complete this sub-section the Applicant also has to select one main location by ticking the check box “Main” next to the intended main location:

Main (*)

Project workplan

Once completed the Project location sub-section the Applicant can fill in the Project

workplan. Click button to add a Work package. Details to be provided are as follows:

Project workplan and budget

Application ID				
Name				
Tax number				
Project acronym				

Total amount: 0,00 ERDF cofinancing rate (%): 85,00 ERDF amount: 0,00

Work package details

Warning! Save data before changing page.

Work package number (*):

Title (*):

Description (*):

WP expected outputs:

Durability of WP outputs:

Transferability of WP outputs:

Responsible partner (*):

Budget:

(*) compulsory field

Warning! Save data before changing page.

The Applicant has to provide the following information (more details on the content required in each field such as the number and type of Work Packages are provided in Factsheet n. 4):

Work package details	Note / required action
Work package number (*):	Type the number.
Title (*):	Type the title.
Description (*):	Insert description.
WP expected outputs:	Insert expected outputs.
Transferability of WP outputs:	Insert transferability of WP outputs.
Responsible partner (*):	Specify the responsible partner by selecting it from the drop down menu list.
Budget	Automatically displayed.

(*) compulsory field.

Press  button regularly upon completion.

For each Work Package the related list of activities shall be provided through the  button. The following fields should be filled-in:

WP Activity details 

Warning! Save data before changing page.

Activity number (*):

Title (*):

Description (*):

Start date (*):

End date (*):

Activity deliverables (*):

Activity budget:

(*) compulsory field

Warning! Save data before changing page.

Please note that in order to generate the Activity code 1.1 in the WP Activity list, the Activity number “1” shall be inserted in the Activity number field displayed above. **The system then automatically associates the Activity n.1 to the Work Package n.1 generating the Activity code 1.1.**

For each Activity a location should be specified through the  button.

Once completed the Project Workplan sub-sections the Applicant can provide infrastructure

and net revenues details in Section H or fill in the Project budget.

Project budget

Click  button to add a budget line. Details to be provided are as follows:

Project workplan and budget

Application ID: 10011562 (INTERREG VA ITHR)
 Lead applicant name: COMUNE DI BELLUNO
 Tax number: 00132550252
 Project acronym:

Total amount: 0,00 ERDF cofinancing rate (%): 85,00 ERDF amount: 0,00

Budget lines by partner: All 

Project budget 

Results: 4

Budget line	Total amount	Link to partner and Activity
1 Preparation costs	€	-
2 Preparation costs	€	-
3 Travel and accommodation	€	-
4 Small scale infrastructures and construction works	€	-
PROJECT BUDGET		0.00 €

  1 RECORD

The Applicant has to select the budget line from the budget line drop-down menu choosing among the available options (i.e.: Preparation costs; Staff; Travel and accommodation; External expertise and services; Equipment; Small scale infrastructure and construction works) and specify the total amount allocated to each specific budget line by typing the number in the related Total amount white field and linking it to the concerned partner (upper drop down menu) and concerned activity (lower drop down menu). When inserting the amount remember to use round figures, without decimals (i.e: 1551, not 1551,20).

Office and administration costs will be calculated automatically by the SIU for each inserted activity staff costs.

Add as many budget lines per partner and activity as needed by clicking on  button.

Press  button regularly upon completion.

It is advisable to insert the budget partner by partner, completing all the budget lines for a partner before starting with another one. The function “budget lines by partners” (top left of the page) it is useful while you are inserting the budget since it allows to select a specific partner and to visualize all the related budget lines.

Once the sub-section is completed move forward to the next Section by clicking the dedicated Sections button.

The following buttons displayed in Section G main page allow the Applicant to see an overview of data inserted in the system concerning Work plan by WP; Workplan by partner and to export data in .csv format respectively:

Section J – Financial plan

In this Section the Applicant is requested to give evidence of budget allocations per reporting period. Page preview as follows:

Application ID 10011562 (INTERREG VA ITHR)
 Lead applicant name COMUNE DI BELLUNO
 Tax number 00132550252
 Project acronym

Reporting by partner - Reporting by WP -

J - Financial Plan

Results: 2

	Reporting period	Total amount	Link to partner and WP	
1	-	€	-	-
2	-	€	-	-
Total		0.00 €		

Add lines by pressing button. In each added line the following information should be provided:

Reporting period	Total amount	Link to partner and WP	
Select the reporting period among the available options displayed in the drop-down menu	Type the amount	Select concerned partner among the available options displayed in the drop-down menu	Select concerned WP among the available options displayed in the drop-down menu

Press button once completed. In case of need lines can be deleted by selecting the concerned row and then clicking the apposite button .

An overview of the data provided (Workplan per WP or Workplan per partner) can be displayed by using the dedicated buttons:

Remember that the amounts per reporting period have to correspond with ones inserted in the Section I – Project budget. In case of discrepancy the system does not prevent the saving but the problem is reported at the end as an error, so it is advisable to carefully check that correspondence is assured already when filling in this Section.

K - Statements Info Sections

Compulsory Statement to be subscribed:

<input type="checkbox"/>	For projects likely to have a significant effect on natural habitat Natura 2000 sites: not only soft measures are planned within the project and the assessment of project implications for the site according to Habitat Directive is available	Delete
<input type="checkbox"/>	3.1 - Project proposals promoting tourism in protected habitats (reference to caves): there is a clear and evident reference that an environmental impact assessment is going to be performed or has been already performed	Delete
<input type="checkbox"/>	3.2 - Project proposals tackling sea environment: reference to Marine Strategy Directive (2008/56/EC) is included	Delete

Add statement

<input type="checkbox"/>	Only soft intangible measures expected	Add
<input type="checkbox"/>	For projects likely to have a significant effect on natural habitat Natura 2000 sites: only soft measures are planned within the project	Add
<input type="checkbox"/>	3.1 - Project proposals involving building constructions and renovation: respect of Directive 2010/31/EU is included	Add
<input type="checkbox"/>	3.2 - Project proposals tackling issues related to birds and other threatened or endemic animal and plant species: reference to Birds and Habitats Directives is included	Add
<input type="checkbox"/>	3.2 - Project proposals tackling issues related to fish species: reference to Common Fisheries Policy is included	Add
<input type="checkbox"/>	3.2 - Project proposals targeting water management: the respect of the requirements of Water Framework Directive (2000/60/EC) RBMPs & FRMP under Directive 2007/60/EC is confirmed	Add
<input type="checkbox"/>	3.3 - Project proposals targeting water-related activities: the respect of the requirements of Water Framework Directive (2000/60/EC) RBMPs & FRMP under Directive 2007/60/EC is confirmed	Add

Back Viewed

This page presents a list of statements to be subscribed. The Applicant has to select from the given list all the Statements related to the Specific Objective of the Proposal by clicking the **Add** button next to the Statement (for detailed information please see Factsheet n.4).

In case of need each statement added to the list can be afterwards deleted by clicking the apposite button **Delete** next to it.

The Applicant is then requested to press **Viewed** button at the end of its choice. By doing so the system saves the choices and automatically brings the Applicant to the Sections list. It is always possible to get back to the Section list also by clicking the apposite button **Sections** or to go back to the previous page using **BACK**. The SIU system checks that all the foreseen declarations per each Specific Objective have been included.

L – Commitments

In Section L – Commitments, the Applicant is requested to select the applicable commitment by picking up each of them from a given list using button. Selected commitments can be also removed from the list by clicking on button next to them.

Application ID: 10010063 (INTERREG VA ITHR)

Name:

Tax number:

Project acronym:

L - Commitments

Compulsory **Commitments to be subscribed:**

For projects likely to have a significant effect on natural habitat Natura 2000 sites; not only soft measures are planned within the project and there is a commitment to making available the assessment of project implications for the site according to Habitat Directive before financing decision.

Add commitment

3.1 - Commitment that the principles of environmental sustainability are addressed and taken into consideration

3.1 - Project proposals purchasing products in case of central government authorities; a commitment to respect Directive 2012/27/EU is included

By pressing button the selected list is saved and the Applicant is automatically transferred to the Sections list. The SIU system checks that all the foreseen declarations per each Specific Objective have been included.

M – Annexes

Section M Preview:

Application ID: (INTERREG VA ITHR)

Lead applicant name:

Tax number:

Project acronym:

M - Annexes

Results: 4

	Description	Numero	Notes	
1	Application Form	1		<input type="button" value="View"/>
2	Power of signature or delegation	1		<input type="button" value="Update"/>
3	Project Partner declaration	1		<input type="button" value="Update"/>
4	Lead Applicant declaration	1		<input type="button" value="Update"/>

A predefined list of attachments to be uploaded afterwards is displayed in this Section. The user can add more lines to the list by clicking on button and then select the type of annex from the list displayed by the drop-down menu, specify the number, name the annex in the field called “Notes” and save data.

Annex

Application ID (INTERREG VA ITHR)
 Lead applicant name
 Tax number
 Project acronym

Type of annex
 Number of annexes
 Notes

601 - Application Form Abstract
 602 - Lead Applicant declaration
 603 - Project Partner declaration
 604 - Power of signature or delegation
 605 - Legal Document attesting the delegation
 606 - Delegation or ratification from the UTI
 607 - Identity card of the person who signed the AF or other annexes

[For the list of documents to be attached and all further requirements please refer to Factsheet n.4](#)

WARNING: for each document that it is not signed digitally, the ID card of the signatory should also be listed in this section.

For example in case the Application will not be signed digitally the user has to add to the list the ID card of the person who will sign the Application by clicking button and specify n. of annexes (1) and notes related to the document (file name) before pressing button:

Annex

000000: Operation completed successfully!

Application ID 10038302 (INTERREG VA ITHR)
 Lead applicant name LUSSIN PICCOLO
 Tax number 98765432111
 Project acronym GUSI

Type of annex IDENTITY CARD OF THE PERSON WHO SIGNED THE AF OR OTHER ANNEXES
 Number of annexes
 Notes

The number of annexes to be indicated clearly depends by the project proposal. For instance if 7 partners are involved in the proposal then it can be expected that the Applicant is indicating 7 PP Declarations in the specific field “Number of annexes” related to the “Type of annex” called PP Declarations. In doing so the Applicant can expect 7 different “boxes” where to upload the PP Declarations (one for each PP) following the confirmation of the proposal.

Once the list of Annex to be uploaded has been set by the user, Section M should be by the applicant. 

User can upload requested files in the Annexes list before the confirmation of the application through the  button.

Each annex have to be uploaded in low resolution and in PDF format.

Siu system allows to upload files with maximum **dimension 5Mb** (5.000 kb)

For text documents, spreadsheets or PP creations is recommended reduce the dimension following this instructions:

- Verify if it is necessary reduce the dimension (pixel or dpi) with a dedicated software. Good results are obtained by setting a resolution up to a maximum of 1280 x 1024 and reducing photos in.jpg format up to 1 Mega pixel;
- Export PDF documents setting the smallest dimension possible, under 5 Mb;

For digital documents produced by paper documents scan follow this instructions:

- Set the scanner in white/black mode with a maximum resolution of 200 dpi (dots / inch). Good results are obtained by setting a resolution of 100 dpi;
- Scan documents only in white/black mode. Do not scan documents in colour or in grey scale.

Users with digital signature: the applicant can directly proceed to digitally sign the documents and then to upload them in this section through the Update button.

Users with handwritten signature: it is necessary to scan the originally signed documents and then upload the scanned version. In this latter case, the identity document of the person who signed the documents has to be uploaded as well.

Once all necessary files are uploaded, the user can move to the main Sections using "Other available functions" on the screen are as follows:

- Download uploaded file through the button ;

- Delete uploaded file through the button  .

In order to successfully upload the files it is recommended to follow carefully the following instructions:

A) Name the files as follows

1. Application Form (Applicationform_Projectacronim);
2. Application Form Abstract (Applicationform_Projectacronim_Abstract);
3. LP declaration (LPdeclaration_LPName_Projectacronim);
4. PPs declarations (PPdeclaration_PPName_Projectacronim);
5. Power of signature or delegation (Powerofsignature_LPName_Projectacronim or Powerofsignature_PPName_Projectacronim);
6. Legal Document attesting the power of delegation (Legaldoc_LPName_Projectacronim or Legaldoc_PPName_Projectacronim);
7. Delegation or ratification from the UTI - only in the event of FVG Municipalities which are part of a UTI and intend to participate individually (UTIdelegation_LPName_Projectacronim or UTIdelegation_PPName_Projectacronim);
8. Identity card of the person who signed the AF or the other Annexes in case they are not signed digitally (IDcard_LPName or IDcard_PPName).

B) Avoid using special characters to name files that need to be uploaded

In particular do not use: ' (single quotation mark), " (double quotation mark), ° (degree symbol), & (ampersand), < (less than character), > (greater than character) and all letters with accents and diacritics marks.

- Save the file to be uploaded on your desktop or in a easily accessible folder;
- To upload the current Application form the user has to first generate it in ".pdf" form by clicking on the **Download Application form** button.

N – Errors

Section N Preview:

N - Errors			Sections
Code	Description	Consequence	
1 H022	I - PROJECT - PROJECT BUDGET: TOTAL BUDGET IS LOWER THAN 500000	Block

Back Viewed

In Section N a list of Errors and their related impacts / consequences with reference to the Submission of the Proposal are displayed. For instance Block means that as long as the

concerned error is not solved the whole Proposal cannot be submitted. The Applicant has to address each Error by coming back to the concerned Section. If the Error list is empty and the error lists counts 0 results it means that the Proposal is ready to be submitted.

Once all Errors have been addressed and no error appears the user has to click on Viewed.

Please note: It is possible to check the errors at the end of each sections. We suggest to use this practice in order to verify the correct completion of each section.

5. CONFIRMATION

The process is composed by these steps: ① 1st Upload of documents ② 2nd Confirmation ③ 3rd Submission ④ 4th Registration (automatically done by the SIU).

After having completed and viewed all the fields presented in the SIU System and made sure that no error message appears in the relevant error section, the user can proceed with the confirmation of the project proposal by clicking on button.

A confirmation to proceed is requested by the system and the user has to press

After the above mentioned message is displayed the user can no longer modify its proposal and can only proceed by uploading the relevant documents as listed in Section M – Annexes. The status of the proposal is no longer in a draft form but it is completed and confirmed.

After the confirmation of the project proposal, the User have to download the AF and the Abstract, sign them and uploaded them to the section M- Annexes.

In case the user have not proceed to upload the necessary documents (project proposal and its related annexes) cannot proceed further with submission and registration of the proposal.

6. SUBMISSION

Upon completion of the upload of all necessary documents the user can submit the proposal through the Submit request button. The system automatically registers the proposal and the status the proposal changes from submitted to **registered**.
