

AdriaClim

Climate change information,
monitoring and management tools
for adaptation strategies
in Adriatic coastal areas

Protect the coast, adapt to climate change!

DESCRIPTION

AdriaClim will address climate change threats by developing regional and local adaptation plans based on up-to-date meteorological and oceanographical information acquired through newly implemented observing and modelling systems for the Adriatic Sea.

PROJECT DURATION
01/01/2020 - 31/12/2022

ERDF
7.499.902,75 €

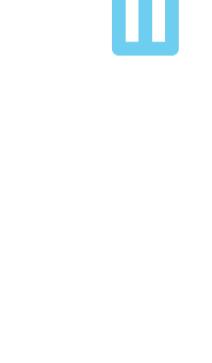

TOTAL BUDGET
8.823.415,00 €
