

Complex flood interventions command post established

Final Version of June/2023

Deliverable number 5.9.1.

Project Acronym	STREAM
Project ID Number	10249186
Project Title	Strategic Development of Flood Management
Priority Axis	2 - Safety and Resilience
Specific objective	2.2 - Increase the safety of the Programme area from natural and man-made disaster
Work Package Number	5
Work Package Title	Pilot projects
Activity Number	5.9.
Activity Title	Karlovac pilot activities
Partner in Charge	PP12
Status	Final
Distribution	Public

Summary

1. Introduction	3
2. Complex flood interventions command post established	4
3. Conclusion	6

1. Introduction

Equipping the operation center for the needs of performing complex interventions has been completed October 14, 2022. The contractor is Elektrocentar, a simple procurement was carried out and the contract was concluded on June 1, 2022. The record of completed works was compiled on October 14, 2022.

2. Complex flood interventions command post established

Given that Karlovac County and the City of Karlovac concluded an agreement on the use of space owned by the City of Karlovac for the purposes of setting up an operational center, and in order to adapt the new system and technologies financed by the STREAM project, it is necessary to make certain construction interventions on the structure and infrastructure that do not require a building permit. Likewise, for the accommodation of equipment and the needs of setting up the operation center, adjust the interior.

Operational force - The fire department of Karlovac County is the only one that has an organized 24-hour duty in the fire department operational centers which, at the moment of activation of the Karlovac County Action Plan, act as the County Operational Center of Civil Protection.
