## 1. Introduction

D.4.2.5. 1 test of equipment and systems in KAZUP was carried out as part of the final education June 16, 2023. It was held in hall, Karlovac County, A. Vraniczanya 2, 47000 Karlovac. Operational forces of the civil protection system of the Karlovac County participated.

## 2. Performed one (1) equipment and system testing in Karlovac County

As part of the final exercise, 1 test of equipment and systems in KAZUP was carried out. The exercise started with the notification of the Civil Protection Center 112, via SMS. The connection and operation of the telemetry system, video surveillance system, siren system and radio communication system using radio stations (TETRA device) are shown through the geoinformation system.

Figure 1. As part of the final exercise, 1 test of equipment and systems in KAZUP was carried out

The beginning of the exercise was symbolized by a threat call sent to Center 112. The simulation related to river water levels that require the declaration of a state of emergency, in which case the prefect, mayors and chiefs become commanders of the Civil Protection Headquarters. In the exercise, a geoinformation system with connected systems was applied.
