LOCAL PRESENTATIONS/EDUCATION ACTIVITIES – Minutes of event

Date: April 26th, 2023 - h10:00-13:00

Place: High School "I.I.S. "G. Boccardi – U. Tiberio" – Termoli

In the early months of 2023, Regione Molise embarked on an enriching collaboration with the G. Boccardi High School, located in Termoli – one of the municipalities involved in the project pilot area of C7C. This partnership bore special significance as one of the school's classes was actively participating in the European project known as "A scuola di Open Coesione" or "Learning Open Cohesion at School." What made this collaboration truly unique was the class's decision to leverage the resources and opportunities offered by the European project Take It Slow to carry out a qualitative investigation and civic monitoring, as mandated by regulations.

On April 26th, the Project Officer (P.O.) and the Project Manager (P.M.) of the Take It Slow project were invited as guests to the halls of the G. Boccardi High School. Their purpose was to participate in an engaging interview session, conducted by the students who were involved in these scholastic endeavors.

The heart of this scholastic engagement lay in a workshop thoughtfully curated to offer a comprehensive insight into the Take It Slow project. The presentation was structured to shed light on the project's achievements, objectives, and the profound impact it aimed to create within the community. However, the spotlight was firmly cast on the "C7C" pilot action, a brainchild of Regione Molise. The workshop served as a platform for knowledge sharing and mutual learning. The students delved into the intricacies of the project: they explored the multifaceted dimensions of sustainable tourism, civic engagement, and the intricate web of activities that underpinned the "C7C" initiative.

NOTE: The school administration did not permit the creation of signature sheets due to the students being minors. The collaboration note, protocolled by Regione Molise, is attached instead.
