

D5.3.3 Guided tours through improved accessible Adriatic heritage sites

PP9/Abruzzo Region

1

1

The 21st of June, following the activities hold in the morning and first afternoon, along the Green Way of Costa dei Trabocchi, a specific guided tour has been organized to present to journalists, stakeholders and members of the LCP the Signals realized and installed with the project funds.

Around 10 people participating on it.

The tour started from the parking site in Torino di Sangro, where one of the signals financed by the project has been installed.

The group moving, following a regional bike tourist guide, riding for around 5 kilometers until Rocca San Giovanni, where the group meet the owner of “Da Masino” lounge bar and bike rent, to share opinion and ideas among entrepreneurs about the opportunities and problems of bike tourism along the green way of costa dei trabocchi and try proposing possible collaborations.

After the aperitive the group goes back to the starting point.

Unfortunately, a signature list has not been realized, this because the participant to the guided tour where part of the participants present to the meeting held during the morning and afternoon.
