

FRAMESPORT

Framework initiative fostering
the sustainable development
of Adriatic small ports

NEW OPPORTUNITIES FOR SMALL ADRIATIC PORTS

An initiative for an integrated development of small ports of the Italian and Croatian coasts, to support their role as proactive socio-economic drivers of the entire territory.

An innovative strategic plan that will guide the sustainable development of a highly relevant sector for the whole Adriatic area, through the implementation of a common ICT platform and many innovative pilot actions.

The Pilot Actions focus on 5 main macro-themes:

ICT applications and services development

Spatial planning and management

Environment and energy aspects

Business aspects

Training and knowledge aspects
