1. Introduction

The following pages offer a brief overview of the small ports facing the Adriatic Sea. Data from these structures have been collected during the second phase of data collection, conducted with the support of the stakeholders of the territory.

This report focuses on the small ports of the Puglia Region. The survey covered a total amount of 31 small ports that are listed in **Errore. L'origine riferimento non è stata trovata.** and shown in the maps in Figure 1.

The data collected during this second round will be useful to further enrich the ICT portal that has now been published and that collect and homogenize data related to small ports of the Adriatic. Furthermore, the FRAMESPORT, has been conceived to be a dynamic tool allowing stakeholders as well as managers and owners of the small ports to modify data related to their structures, in order to keep it constantly updated.

The next chapters report data of the structures recorded in this second round, including a map showing their location.

In particular, the data hereby presented concern the following topics:

- Dimensional characteristics
- Technical services
- Services to boaters
- Distance from main services and other infrastructures

2. The small ports of Puglia Region

N°	Name of the port	Latitude	Longitude
1	Molo Sant'Eligio	40,475586	17,223654
2	Porto di Manfredonia	41,620701	15,925287
3	Porto di Bari	41,147791	16,848242
4	Porto di Barletta	41,333628	16,294774
5	Porto di Marina Cala delle Sirene	41,634303	15,933857
6	Porto di Monopoli	40,956086	17,308798
7	Porto interno di Brindisi	40,64572	17,952078
8	Porto di Bisceglie	41,246361	16,509752
9	Porto di Cala Ponte	41,004487	17,204837
10	Porto di Cala Portecchia	41,065274	17,088963
11	Porto di Capojale	41,922895	15,666729
12	Porto di Castro Marina	40,000575	18,427944
13	Porto di Foce Varano	41,922335	15,795633
14	Porto di Giovinazzo	41,191409	16,672445

Table 1. The small ports of Puglia Region recorded during the second round of data collection with related coordinates

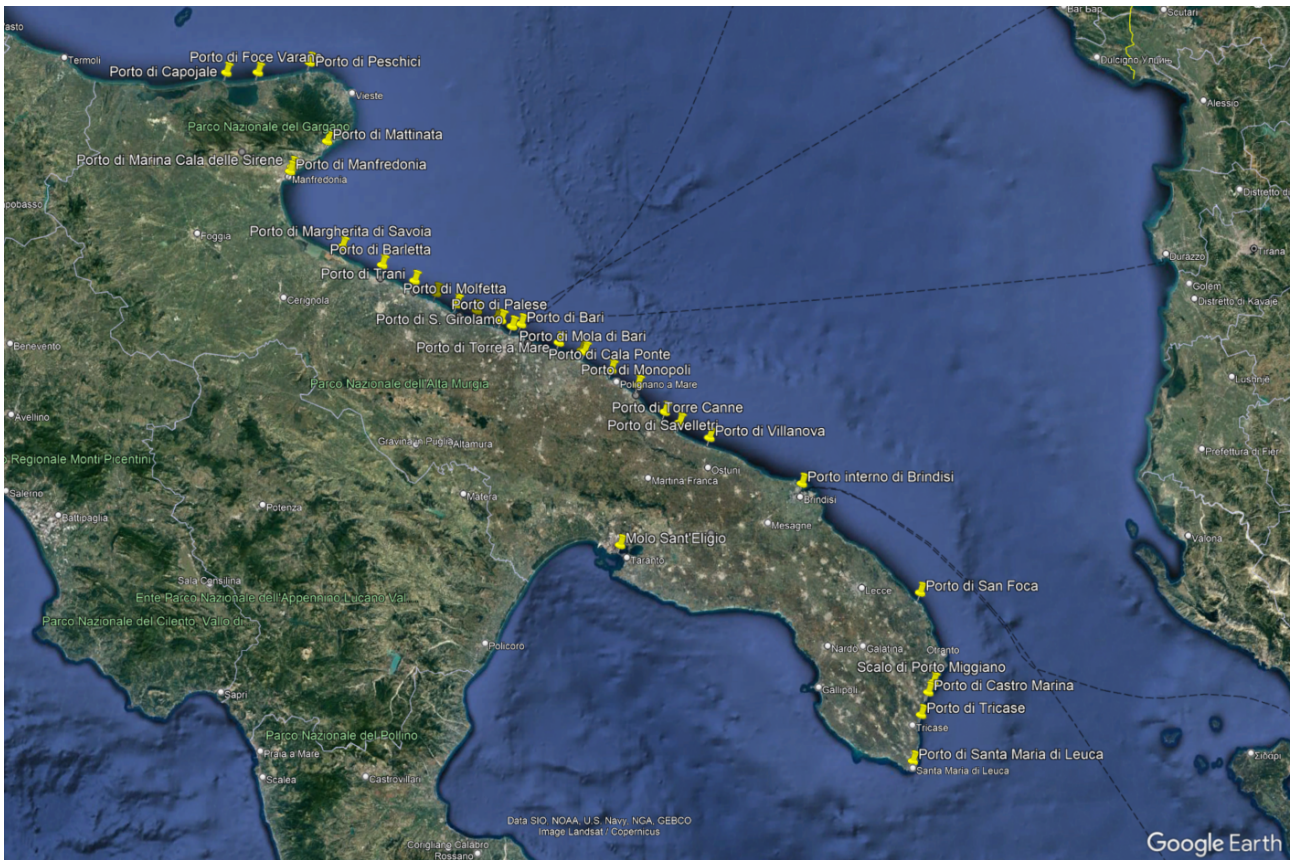

Figure 1 Detailed map showing the location of small ports of the Puglia Region whose data has been collected in this second round

Table 8 a, b, c. Distances are indicated in number of Kilometers. “-” missing information. In parenthesis is reported the column identifying the variable in the xls database.

The picture that emerges from the survey offers an interesting overview of the dimensional characteristics and services provided by the small ports of the Puglia Region, as well as their connectivity with the territory. This highlights the existence of a lively and important reality that could be better exploited and promoted to generate a profitable socio-economic interest for the whole area.

Further data on:

- i. *demand and rates* (e.g., percentage of users per age range, users’ categorization, vessels and berth usage),
- ii. *ecological services* (e.g., presence of wastewater monitoring system, separate waste collection system, wastewater treatment plant, environmentally friendly tanks for collecting waste oils and wastewater, battery disposal etc..) and
- iii. *services for the territory* (e.g., presence of a tour guide, of touristic information documentation (digital or paper), of half/full-day tourist excursions)

have been also collected for such small ports.

Such data will be available in the FRAMESPORT portal for registered users.
