

# ICT platform 1<sup>st</sup> updating report

## Zadar County

Final version of 25/11/2022

D.3.2.2

Project Full Title	Framework initiative fostering the sustainable development of Adriatic small ports
Project Acronym	FRAMESPORT
Project ID	10253074
Project Website	<a href="https://www.italy-croatia.eu/web/framesport">https://www.italy-croatia.eu/web/framesport</a>
Priority Axis	4 – Maritime Transport
Specific Objective	4.1
Work Package	3
Work Package title	ICT platform 1 <sup>st</sup> updating report – Zadar County
Deliverable Nr.	3.2.2
Status	Final
Partner in charge	Port Authority of Zadar
Dissemination Level	Public

#### ACKNOWLEDGEMENT

The work described in this document was supported by the INTERREG V-A IT-HR CBC Programme - “Strategic” Subsidy Contract - Project: “Framework initiative fostering the sustainable development of Adriatic small ports, FRAMESPORT” (Project ID: 10253074).

## 1. Introduction

The following pages offer a brief overview of the Croatian small ports that face the Adriatic Sea. Data from these structures have been collected during the first phase of data collection conducted with the support of the stakeholders of the territory.

The figure below gives an overview of the study area showing the small ports for which data have been collected. Small ports are colored differently depending on the County they belong to (Istra, Primorje – Gorski Kotar, Lika – Senj, Zadar, Sibenik – Knin, Split – Dalmatia, Dubrovnik – Neretva Counties).

Croatian small ports

- Istra County
- Primorje - Gorski Kotar County
- Lika - Senj County
- Zadar County
- Sibenik - Knin County
- Split - Dalmatia County
- Dubrovnik - Neretva County

*Figure 1. Study area and small ports for which data have been collected during the first data collection phase performed in 2021. Small ports are colored differently depending on the County they belong to.*

This report focuses on the small ports of the Zadar County (orange dots in the map in Figure 1). The survey covered a total amount of 120 small ports that are listed in Table 1 and shown in the maps in Figure 2.

If available, further data will be collected in the second round of data collection that will be performed in the upcoming months till the end of the project, foreseen for June 2023.

Furthermore, the FRAMESPORT ICT portal that has been developed during the project implementation and that is close to its publication, has been conceived to be a dynamic tool allowing stakeholders as well as managers and owners of the small ports to interact with it, having access to the data concerning their structure(s) and having the possibility to modify them so that they are always updated.

The next chapters report data of the structures recorded so far.

In particular, the data hereby presented concern the following topics:

- Dimensional characteristics
- Technical services
- Services to boaters
- Distance from main services and other infrastructures

## 2. The small ports of Zadar County

*Table 8 a, b, c. Distances are indicated in number of Kilometers, while services are presented as "1" presence of the service, "0" absence of the service, "-" missing information*

The picture that emerges from the survey offers an interesting overview of the dimensional characteristics and services provided by the small ports of the County, as well as their connectivity with the territory. This highlights the existence of a lively and important reality that could be better exploited and promoted to generate a profitable socio-economic interest for the whole area.

Further data on:

- i. *demand and rates* (e.g., percentage of users per age range, users' categorization, vessels and berth usage),
- ii. *ecological services* (e.g., presence of wastewater monitoring system, separate waste collection system, wastewater treatment plant, environmentally friendly tanks for collecting waste oils and wastewater, battery disposal etc..) and

iii. *services for the territory* (e.g., presence of a tour guide, of touristic information documentation (digital or paper), of half/full-day tourist excursions) have been also collected for such small ports.

Such data will be available in the FRAMESPORT portal for registered users.
