

High level conference

Conference report

Deliverable Number D.2.2.1

Project Acronym	Firespill
Project ID Number	10255377
Project Title	Fostering Improved Reaction of crossborder Emergency Services and Prevention Increasing safety Level
Priority Axis	Safety and resilience
Specific objective	2.2 - Increase the safety of the Programme area from natural and man-made disaster
Work Package Number	2
Work Package Title	WP2 Communication activities
Activity Number	2.2 Public events
Activity Title	High-level Conference
Partner in Charge	LP/PP13
Partners involved	All
Status	Final
Distribution	Partnership
Date of release:	28.12.2021

As part of the Firespill Project Italy - Croatia, an international hybrid conference "Disaster Risk Management" was held in Split on October 21st and 22nd in hotel Atrium.

The conference is organized by the Firespill Project Italy - Croatia project partners Split Dalmatia County and PI RERA S.D.

Hundreds of representatives of regional and local authorities, development agencies, the scientific community, institutions and rescue services involved in resolving crisis situations from Croatia and Italy, discussed one of the most current crisis situations in both countries - about earthquakes.

The emergency services of the Republic of Croatia for disaster response belong to the very top of the world in terms of readiness and training, but their technical equipment is not at that level. It is necessary to use as much as possible funds from the European Union in order to raise emergency services to an even higher level and become a safety brand in this part of Europe, was the main message of the conference.

Within the conference, FIRESPELL Croatian project partners held technical meeting and following project partners were presented in live:

- Public Institution RERA S.D.
- Dubrovnik Neretva County
- Adriatic Training and Research Centre for Accidental Marine Pollution Preparedness and Response
- Zadar County
- Region of Istria
- Development Agency of Sibenik Knin County
- Split Dalmatia County

CONFERENCE INVITATION ON THE OFFICIAL WEBSITE AND SOCIAL MEDIA

LP PI RERA SD and Split Dalmatia County as a organizer of the conference *Disaster Risk Management* coordinated together the complete organisation of this event. PI RERA SD Firespill team send conference email invitation to the whole partnership on the 29th September. Within this invitation email Registration form was also sent. Project teams were in contact of this event continuously, receiving emails and enquiries from project participants.

Additionally, the final version of the invitation letter and agenda for the conference and the partners technical meeting as well were shared with the whole partnership.

We are pleased to invite you to the:

Conference "DISASTER RISK MANAGEMENT", 21. – 22. October 2021 in Split.

Please find enclosed Invitation Letter for *Disaster Risk Management* Conference, which will be held in Split (more information about location details soon) on 21. – 22. October 2021.

As you can see, conference is imagined as a two-day event which will be also live streamed.

Conference focus is to bring together FIRESPELL project partners and relevant experts, policy makers and representatives in the field of emergency risk management in terms of reaction to natural and manmade hazards.

Within mentioned conference, our plan is also organizing **Firespill Third Steering Committee Meeting** (planned for 21st October, in the morning), our first live meeting.

This is a great opportunity to finally meet each other and discuss about project activities. We are really looking forward to meeting you!

Therefore, we kindly ask you to fill this online form about your possibility to attend this event in personal in Split, so we can go forward with the organizing both of activities (Conference and 3rd SC Meeting as well)

<https://forms.office.com/Pages/ResponsePage.aspx?id=9mT3ADAP1UyPGYr7QJUIz49YuG7GG-tDqGtCVg42lodUN1Y5MzdWRkVNSTU3SklRlQwRlZXTDBQRCAu>

Please, fill out linked form by this Friday – 24th September 2021. Thank you all in advance!

We will inform you soon with more details relating to agenda and conference place.

Best regards,

RERA FIRESPELL TEAM

Earthquakes shaking Croatia as the most important topic of the international conference "Disaster Management" to be held on October 21 and 22 in Split

"Disaster Management" is the name of a two-day international hybrid conference to be held in Split on October 21st and 22nd as part of the cross-border FireSpill project, bringing together representatives of regional and local authorities, development agencies, the scientific community, institutions and rescue services involved in resolving crisis situations from Croatia and Italy.

The most prominent topic of this conference will be earthquakes as one of the most current recent crises in both countries, especially in Croatia after the earthquakes in Zagreb and Banja. These events opened a series of expert discussions and questions about seismic areas in Croatia, the possibilities of forecasting and ways of preventive protection from earthquakes to managing the crisis caused by its devastating consequences.

The conference is organized by the Split-Dalmatia County, the Administrative Department for Croatian Veterans, Civil Protection and Human Rights and Public institution RERA S.D. for coordination and development of Split - Dalmatia County, as part of the FireSpill project funded by the EU cross-border cooperation program INTERREG Italy - Croatia.

The FireSpill project, which brings together 16 project partners from Italy and Croatia, aims to increase the capacity of emergency services to improve cross-border efficiency in dealing with natural and man-made disasters, reducing population exposure and increasing the safety of the Croatian and Italian Adriatic basins by improving measures, and emergency prevention and management instruments. The estimated budget of the FireSpill project is 120 million kuna, of which about 65 million kuna refers to activities in the Split-Dalmatia County within which the largest training center for firefighters in this part of Europe will be built - Regional Teaching Center for training operational forces.

All participants who would like to participate the conference online should register at the link: <https://forms.gle/CpPzuSkjwm7U1Tm48> for the detailed informations.
