## **EVENT DESCRIPTION**

As part of the Firespill Project communication initiatives, ARPA FVG (PP11) has organized and conducted events to inform the citizens, besides the stakeholder groups, about the project objectives and the progress of the activities, with special focus on the pilot area, where PP11 is mainly involved. The info day, here presented, contributes to the project deliverable D.2.2.2

The info day was held in Trieste on September 27, 2021 in the frame of a wider initiative that ARPA FVG has organized across the year 2021, with the aim to bring scientific and technical news, related to explain the relevance of INTERREG projects to the general public.

The name of the initiative was “A misura di mare” and took place in Trieste on the dock “Molo Audace”. On the dock, a stand was set up to host the speakers and the guests, besides a set of displays, and voice amplifiers to allow the participants to easily see the slides and listen to the presenters during the communications. The Firespill rollups, posters created the choreographic perimeter of the stand, where desks with project promotional material, as leaflets, was distributed to the participants.

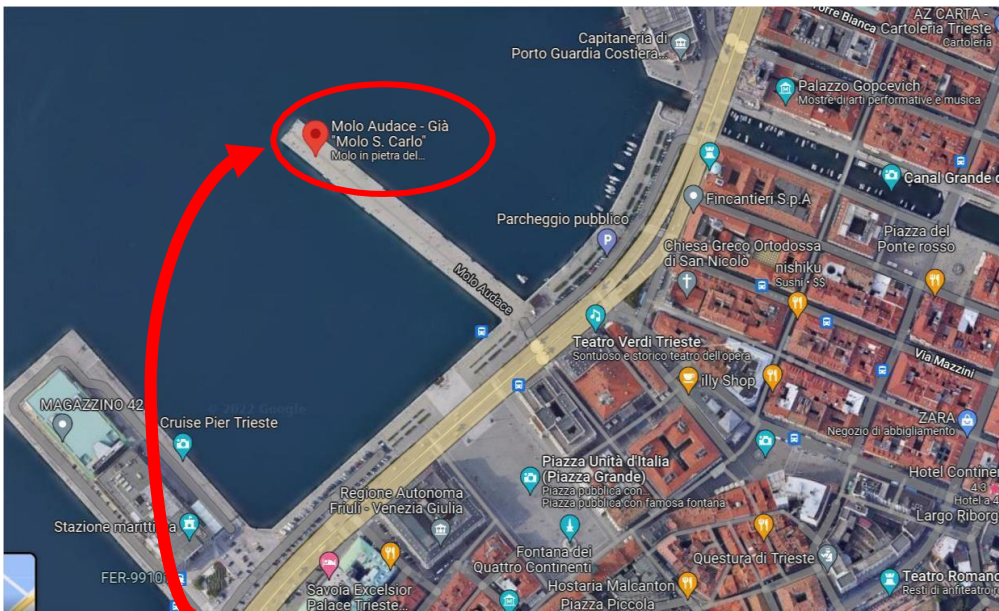

## **EVENT ON WEBSITE AND SOCIAL MEDIA**

Besides the citizens attracted by the initiative, among the stakeholders there was also the Trieste Guard Coast, represented by the local Admiral, and the Italian Naval League, with the Trieste section President. Several media have been invited to the event and they took the opportunity to address questions to the ARPA FVG personnel involved in the FIRESPELL Project. Among them the broadcast “Radio Punto Zero” and the local newspaper “Il Piccolo”, that brought the information, gathered during the info day, to a wider attendance thanks to the news they issued and diffused also by way of socials.

Here below are some links to the news and the posts that have been issued by media.
