

Specialized exercises

Deliverable 4.3.1

1

1

Project Acronym	Firespill
Project ID Number	10255377
Project Title	Fostering Improved Reaction of crossborder Emergency Services and Prevention Increasing safety Level
Priority Axis	Safety and resilience
Specific objective	2.2 - Increase the safety of the Programme area from natural and man-made disaster
Work Package Number	4
Work Package Title	ENHANCEMENT OF EMERGENCY SERVICE ORGANIZATIONS' OPERATIONAL CAPABILITIES- PILOT PROJECTS' DEPLOYMENT
Activity Number	4.3
Activity Title	OIL SPILLS AND OTHER MARINE HAZARDS PILOTS DEPLOYMENT
Partner in Charge	PP13 – SPLITSKO-DALMATINSKA ŽUPANIJA
Partners involved	
Status	Achieved
Distribution	Public
Date of release:	04.09.2021 & 13.10.2021.

In November of 2021, ATRAC developed a Methodology for Risk Assessment for Oil Spills in the Adriatic Sea. Also, in 2021, ATRAC was a part of two exercises in which we promoted the 'FIRESPELL' project and used the developed Methodology as exercise materials. One of the exercises was held on September 4th 2021 and was called 'Čuvaj, pazi, ne bacaj' and was focused on the clean up of Port of Rijeka. The second exercise was held on October 13th 2021 with the name 'EKO-MORE 2021'. The second exercise was held on a larger scale and it involved a few different teams that were specialized in their fields. In this exercise, an accidental marine pollution was simulated and corresponding equipment was used to clean up the spilled 'oil'. ATRAC's role was to give advice on fitting equipment to be used, as well as to explain what the equipment does to the people that weren't familiar with it. The third event within this activity was specialized equipment demonstration that was organized by the Civil Protection in May of 2023 in Grobnik.
