

The challenge

Adriatic mariculture provides highly valued fish products for both local and distant markets. This sector can further develop thanks to new available technologies and stronger information for consumers. The sector can offer high qualification job opportunities and boost local economy.

The team

Within **AdriAquaNet** project, **4 industries, 1 consortium** and **6 research laboratories** from both **Italy** and **Croatia** are teaming up to develop and apply technologies for fish farming and marketing. This is the first ever initiative for improving the quality of fish farming and marketing by cooperation between both sides of the Adriatic Sea.

Project Partner 8 – Friškina d.o.o.

Fish farm

THE TEAM

- A** **Dragan Pezelj**, M. Sc. Farm director,
Representative person
- B** **Dužo Vlastelica**, mag. oec.,
Project manager, Financial manager
- C** **Tatijana Prkić**, univ. bacc. oec.,
Communication manager
- D** **Igor Cvitić**, *Fish farm manager*

EXPERTISE

- 35 years experience in fishery and mariculture, cooperates with science and actively participates in inter-governmental fishery organizations.
- Project management, financial management and coordination of activities.
- Project communication and financial administration.
- Fish farm management.
