## Follow up report on the event/meeting

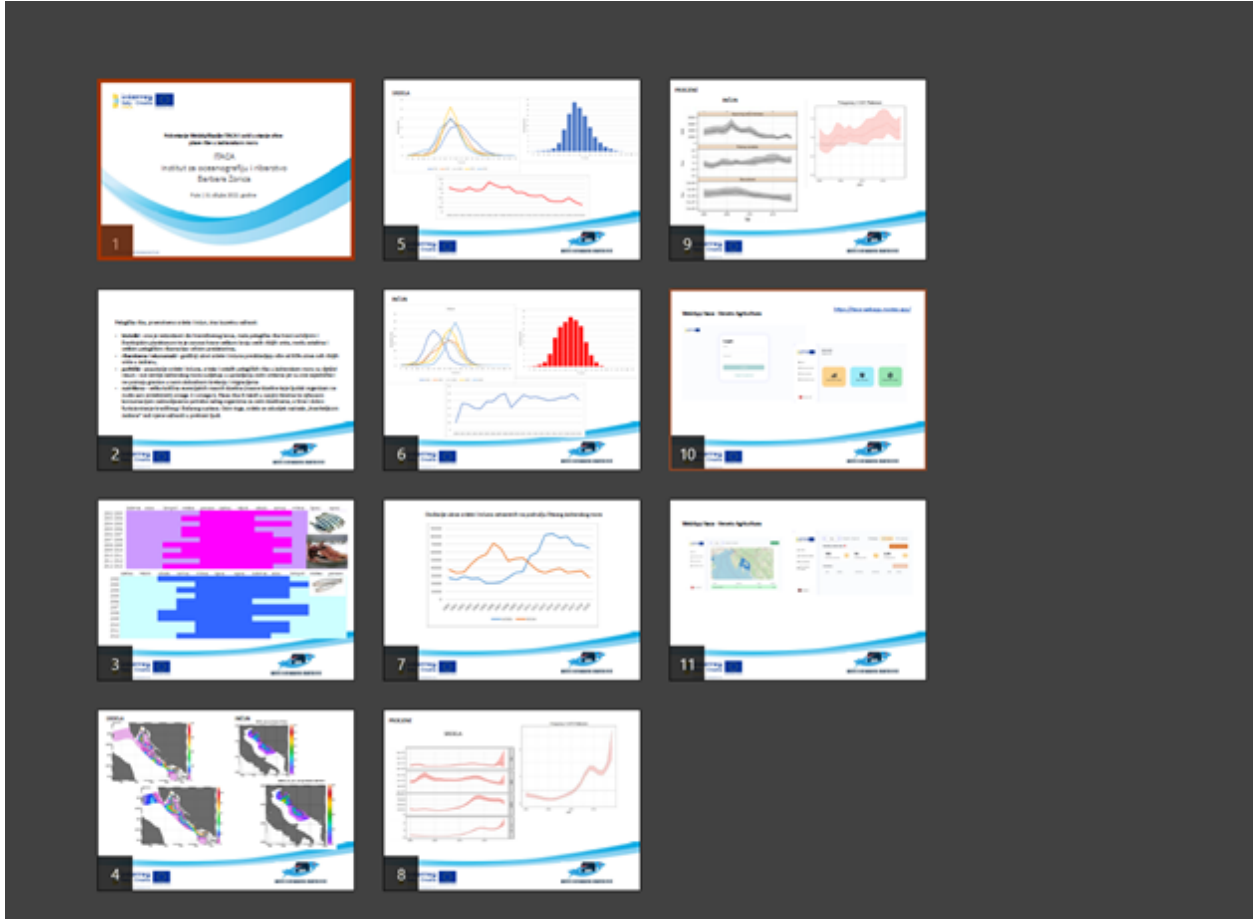

|  |   |
|--|---|
| Type of event  | Physical/online   |
| Location   | Pula  |
| Date of the event  | 31.03.2022.   |
| Time/Duration  | 1 day   |
| Purpose of the event (What was the objective?)                   | <i>The workshop was intended for SP fisheries operators previously involved in ITACA project who are already in training, but also for those who are not previously trained but might be interested in using the ICT system in future, in order to raise the awareness towards the sustainability of fishing activities and to spread the utilization of the ICT system, favouring the adhesion od SMEs to the cluster.</i>   |
| Short description of the event (what happened during the event?) | <i>Workshop have been organized in premises of IDA d.o.o., Mletačka 12/IV - Pula, by AZRRI – Agency for rural development of Istria Ltd Pazin (PP4) in collaboration with IZOR - Institute of oceanography and fisheries from Split (PP6).<br/>The workshop was intended for SP fisheries operators previously involved in ITACA project who are already in training, but also for those who are not previously trained but might be interested in using the ICT system in future, in order to raise the awareness towards the sustainability of fishing activities and to spread the utilization of the ICT system, favouring the adhesion od SMEs to the cluster.<br/>Dalmatian fishery operators have been given the opportunity to participate online on the workshop via Zoom, which they have used.<br/>Workshop started at 10:00 a.m., with a welcome word of dr. sc. Barbara Zorica from IZOR - Institute of oceanography and fisheries, Split. After introduction, Ms.</i> |

|   |   |
|---|---|
|   | <p><i>Zorica held a presentation under the title “Launch of the ITACA WebApp and insight into the state of small pelagic fish in the Adriatic Sea”. After her comprehensive lecture on the state of small pelagic fish in the Adriatic, we tried to enter and run the ITACA Web Application, which have been done together by Ms. Zorica and our contracted external expert from “Aranea”, Ivona Rupić.</i></p> <p><i>Ms. Rupić firstly explained to workshop participants, in detail, how the Web application works, and then how the operators will enter their data into the application, which was done on the example of one of our Istrian operators.</i></p> |
| <i>Results/Outcomes of the event (What are the takeaways from the event?)</i> | <i>Using of Web application and entering data</i>   |

 Innovative Tools to  
 increAsE Competitiveness  
 and sustainability of  
 small pelagic fisheries

**SMART FISHING TO PRESERVE  
 SMALL PELAGIC**

**PROJECT DURATION**  
 01/07/2018 - 30/06/2021

**ERDF**  
 € 1.450.706,94

**TOTAL BUDGET**  
 € 1.755.407,00

**DESCRIPTION**  
 Itaca project aims to set up a SMEs-oriented ICT tool, based on a scientific predictive model, that allows to tailor fishing catch activities on small pelagic resources to both socio-economic and environmental sustainability. The exploitation of the ITACA (ITC) tool at whole Adriatic level, by a cluster of fishing SMEs to be established at cross-border level, contributes factually to the application of blue innovation for the reduction of the human pressure on marine resources.
