EVENT DESCRIPTION

On 15 October 2019 the Università Politecnica delle Marche (UNIVPM) organized in Ancona the conference "Climate change and disaster risk reduction: training, research and operations in the Civil Protection System", in collaboration with the National and Regional Civil Protection of Marche Region.

The day focused on local experiences and good practices pursued by operators and users of Civil Protection services, also with in the view of climate change.

An in-depth focus was dedicated to the European Interreg Project Italy-Croatia RESPONSE on mitigation and adaptation strategies to climate change in the Adriatic.

The large audience, mainly composed of UNIVPM students and officials of the Marche Civil Protection, was captivated and satisfied by the content of the conference.
