Other: project partners	6	ARPA Veneto
тот	24	

EVENT DESCRIPTION

Goal of the meeting was to illustrate potential consequences of climate change (CC) and to start a collaboration aimed at developing a participatory process in the coastal area that relates to the activities of the Costa Contract.

The participatory process aims to improve the historical knowledge of the impacts of climate change and the needs of the Veneto coastal territory with a view to medium and long-term planning, involving public and private actors.

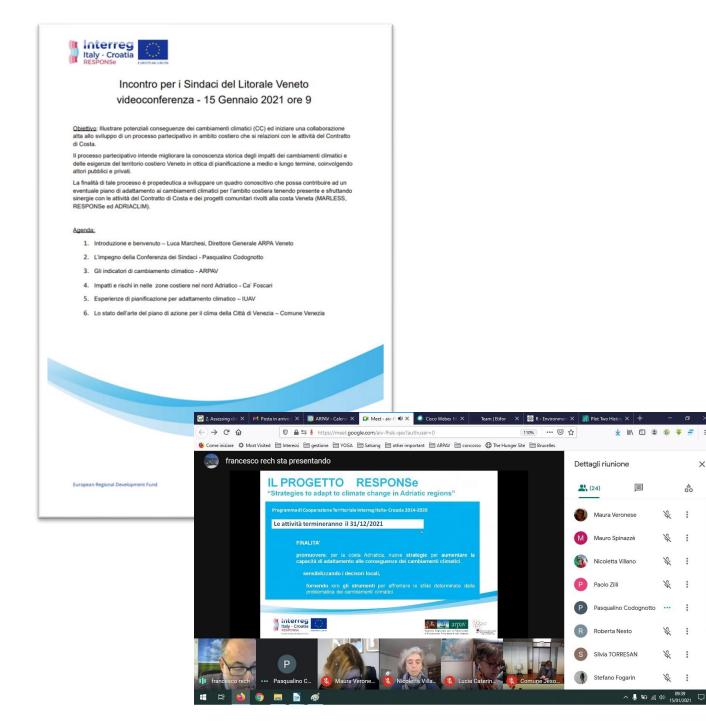

The purpose of this process is preparatory to developing a cognitive framework that can contribute to a possible adaptation plan to climate change for the coastal area, keeping in mind and exploiting synergies with the activities of the Costa Contract and community projects aimed at the Venetian coast (MARLESS, RESPONSe and ADRIACLIM).

Agenda:

- 1. Introduction and welcome Luca Marchesi, General Manager of ARPA Veneto
- 2. The commitment of the Conference of Mayors Pasqualino Codognotto
- 3. Climate change indicators ARPAV
- 4. Impacts and risks in coastal areas in the northern Adriatic Ca' Foscari
- 5. Climate adaptation planning experiences IUAV
- 6. The state of the art of the climate action plan of the City of Venice Municipality of Venice
