Document Control Sheet

Project number:	10048765
Project acronym	ASTERIS
Project Title	Adaptation to Saltwater inTrusion in sEa level RIse Scenarios
Start of the project	January 2019
Duration	30 months

Related activity:	2.3. – Digital activities
Deliverable name:	2.3.1. ASTERIS website on IT-HR web-platform management
Type of deliverable	Report
Language	English
Work Package Title	Communication activities
Work Package number	2
Work Package Leader	Istrian University of Applied Sciences

Status	Finished
Author (s)	Andrea Varesko, Tea Gobo
Version	1
Due date of deliverable	30 th of June 2021
Delivery date	30 th of June 2021

INDEX

1. INTRODUCTION.....	3
2. Asteris website on IT-HR platform management.	4
2. Content on Asteris webplatform	5

1. INTRODUCTION

This activity is completely devoted to project promotion through electronic media and transfer of knowledge among involved partners, stakeholder and general public. Project partners have used their institutional websites for the dissemination of the project both on local and European level, providing news and general information of the project.

This activity is completely devoted to project promotion through electronic media and transfer of knowledge among involved partners, stakeholder and general public. ASTERIS will use web-platform as a main tool for the dissemination of the project both on local and European level and for the continuous update of the project activities and results, also providing news and general information. ASTERIS website on IT-HR web platform was constantly updated with images, video or interviews recorded during public events and not only with text content.

This communication objective targets local, regional and national public authorities; regional and local development agencies, environmental agencies and regional associations; NGOs; universities, research institutes and stakeholders.

It allows constant sharing of new achievements reached and fulfilled results during the lifetime of the project.

2. Asteris website on IT-HR platform management.

This communication tool is very important because it provides promotional effects during the whole project lifetime having impact primarily to stakeholders who regularly follow the institutional websites of the partnership and to various users.

PP7 was gathering information electronically on project updates from designated PPs Communication responsible who then uploaded content on the dedicated project website on IT-HR web platform.

The content of the Asteris dedicated webpage is orientated not only to its visitors but also to be of use to the partnership because on it can be found all the communication material and factsheets with instruction and guidelines about communication activities and producing promotional activities under the menu doc and tools.

It contains all the information about the project and descriptions of all partners including their contacts.

Unfortunately, the website was released a few months after the beginning of the project. Initially Asteris Communication manager encountered problems with the functioning of the website during the 1st and 2nd reporting and the content was uploaded with delay throughout the lifetime of the project.

The webpage consists of 4 main sections:

1. Main facts and figures + project description + key numbers
2. Partnership
3. News and Events
4. Library (Docs and tools)

There is also a multimedia section containing a gallery of images from Steering committee meetings, conferences and events of the project.

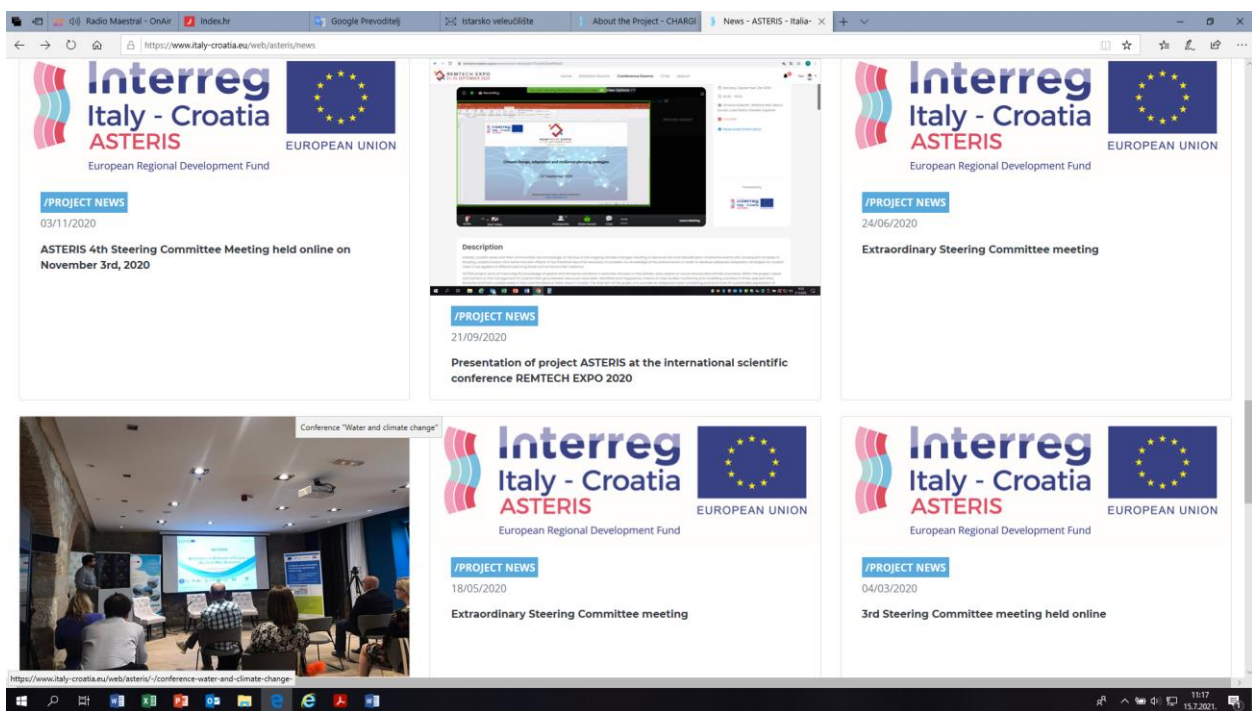

More information here: <https://www.italy-croatia.eu/web/asteris>

2. Content on Asteris webplatform

The **NEWS** section has been updated with the following news:

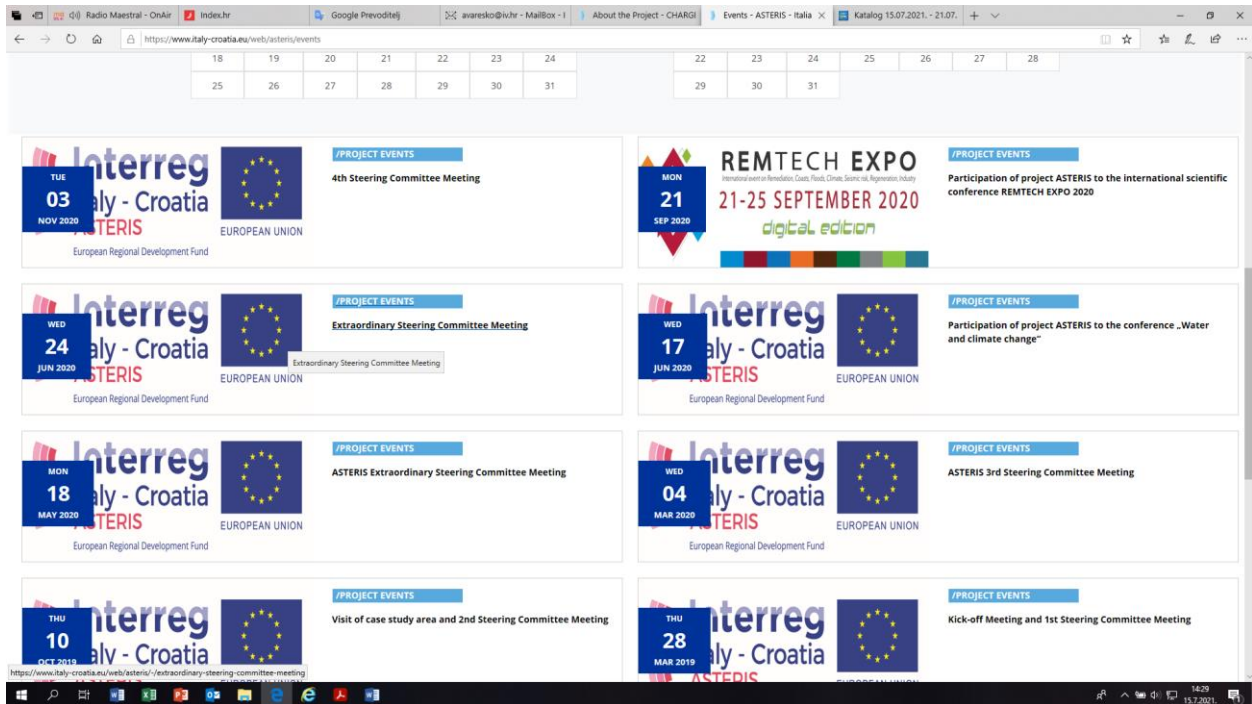

The news section has been updated with 14 news including information from all STC meetings (ordinary and extraordinary), all organized public events by PPs, participation to other international conferences and other important news about achieved results and outputs.

- ASTERIS 5th Steering Committee in Pula (online)
- ASTERIS 4th Steering Committee in Fano (online)
- ASTERIS 3rd Steering Committee in Ravenna (online)
- ASTERIS 2nd Steering Committee in Split
- ASTERIS kick off meeting in Urbino
- ASTERIS extraordinary Steering Committee meetings

D 2.3.1. Asteris website on IT-HR platform

The section **EVENT** has been provided with the information about partnership Steering committee meetings, public events and participation to other conferences (Remtech expo 2020 and „Water and climate change“ in Split)

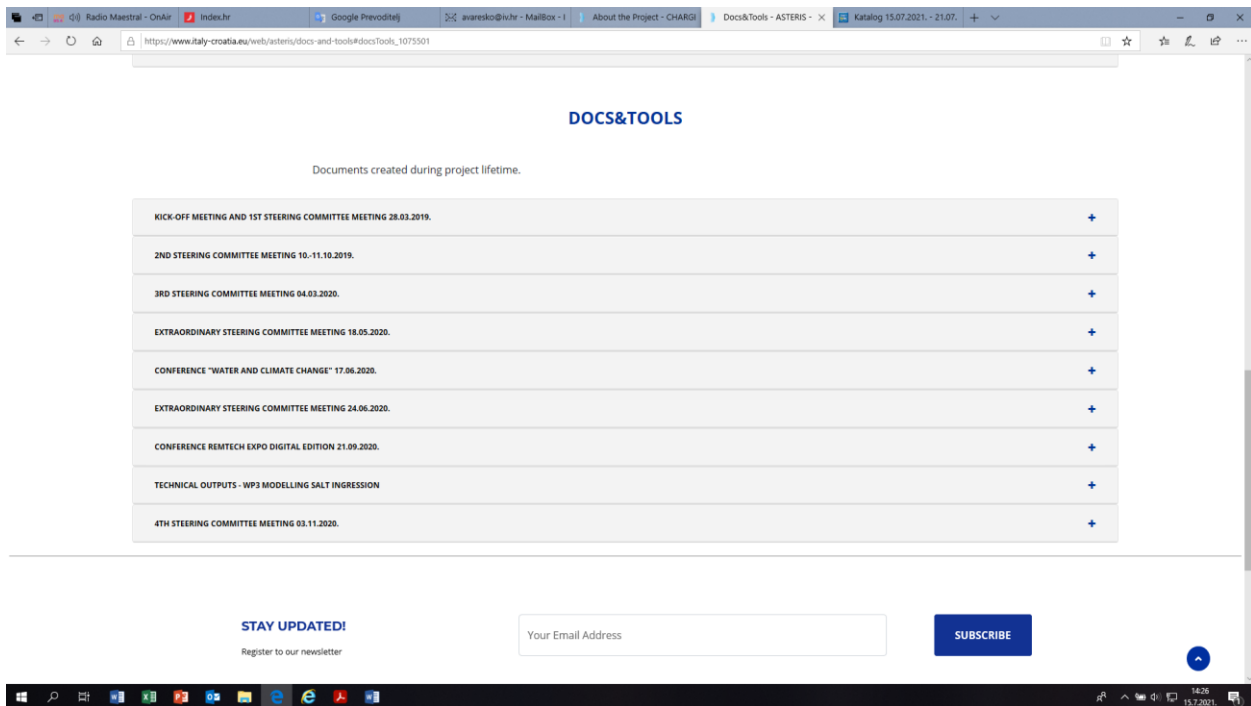

The screenshot shows a web browser displaying the 'EVENTS' section of the ASTERIS website. The page features a calendar grid at the top with dates from 18 to 31. Below the calendar, there are eight event cards, each with the Interreg Italy-Croatia ASTERIS logo and the European Union flag. The events listed are:

- TUE 03 NOV 2020:** 4th Steering Committee Meeting
- MON 21 SEP 2020:** REMTECH EXPO 21-25 SEPTEMBER 2020 digital edition. Participation of project ASTERIS to the international scientific conference REMTECH EXPO 2020
- WED 24 JUN 2020:** Extraordinary Steering Committee Meeting
- WED 17 JUN 2020:** Participation of project ASTERIS to the conference „Water and climate change“
- MON 18 MAY 2020:** ASTERIS Extraordinary Steering Committee Meeting
- WED 04 MAR 2020:** ASTERIS 3rd Steering Committee Meeting
- THU 10 OCT 2019:** Visit of case study area and 2nd Steering Committee Meeting
- THU 28 MAR 2019:** Kick-off Meeting and 1st Steering Committee Meeting

The **LIBRARY** sections contains a docs and tools subsection including documents created during the project lifetime including the achieved deliverables and a project documents subsection including the main project implementation documents.
