Minutes:

As part of project's WP2, Activity 2.4 (Dissemination activities, seminars and special events organisation) Dubrovnik-neretva Region organized II Regional event. Event was organized on 9th of May 2022.

The II Regional event brought together 52 representatives of local authorities in the Dubrovnik-neretva County, farmers, public companies and the media.

The prefect of the Dubrovnik-neretva County, Mr. Nikola Dobroslavić, made an introductory address to those present, who pointed out that this is an innovative project, unique in the world at the moment. In his address, he spoke about the importance of pilot activities for the Neretva valley, which was selected as a pilot area where carbon research was carried out.

Project team member Marijana Marlais gave a presentation of the GECO2 project.

The results of the establishment of the Voluntary Carbon Market from agricultural sector in the Dubrovnik-neretva County were presented by representatives of external experts Mr. Boris Lazarević and Mrs. Maja Celinščak.

They also presented the document: Guidelines for the Development of Green Agriculture and Voluntary agricultural carbon-based markets in Dubrovnik-neretva County.

Invitation and agenda

SECOND REGIONAL EVENT OF THE PROJECT GECO2

"Green Economy and CO2"

Dubrovnik-Neretva County invites all interested institutional representatives, research communities, farmers and agricultural farmers, business organizations, industrial or service companies, citizens and civil society organizations to participate in the GECO2 Second Regional event, which will take place on 9th of May 2022, starting at 9:30 am at Hotel Narenta, Splitska 57 A, Metković.

The Second Regional event of the GECO2 project will discuss in more detail the achieved results of the project, climate changes and the establishment of a voluntary carbon market in the agricultural sector. Documents related to the future development of the agricultural sector based on the introduction of new practices related to CO2 sequestration in soil, and the future development of a voluntary carbon market based on the exploitation of the agricultural sector will be presented.

GECO2 project aims at strengthening the potential of the agricultural sector in the Adriatic Region to decrease carbon emissions in the atmosphere through better management of soils and crop residues and to create income with the implementation of voluntary carbon markets. Please, find more about project on www.italy-croatia.eu/geco2.
