Invitations

Public institution RERA S.D. for coordination and development of the Split-Dalmatia County is pleased to invite you to a lecture:

“Climate change” to be held on December 7, 2020 (Monday) from 10:00 to 11:30.

As part of the GECO2 project, a Lecture on "Climate Change" will be held. Lecturers are: doc. Vedran Poljak and prof. Frane Strikić.

The thematic units are:

- I. Climate change in the 21st century
- II. The impact of climate change on olive growing

JU RERA S.D together with 7 partners from Italy and Croatia participates in the implementation of the project GECO2 - Green Economy and CO2 funded under the Interreg Italy-Croatia CBC Program.

The GECO2 project aims, through innovative solutions, to influence new environmental situations and implement measures such as encouraging green entrepreneurship (CO2 market), development of organic agriculture and direct work and education of farmers to encourage sustainable use of resources. The GECO2 project will establish an innovative interregional system to improve climate change monitoring, introduce experimental eco-friendly agricultural practices and establish a new voluntary carbon market.

The lecture will be held through the Microsoft Teams platform. You can join the lecture at the link:
