JOINT STRATEGIES FOR CLIMATE CHANGE ADAPTATION IN COASTAL AREAS

The project idea reflects the necessity to operate at a wider district level and better define strategies and actions for climate change adaptation, especially for those weather and climate changes and hydrogeological risks affecting coastal areas.

01.01.2019 - 30.06.2021

Total budget: € 2.094.857,00
Financing is provided from ERDF: €1,78 MLN
National co-financing: € 314.288

The project is co-funded by the Consorzio Bacino Imbrifero Montano del Tronto (BIMT)

LEAD PARTNER

PROJECT PARTNERS

City of San Benedetto del Tronto and the neighboring Municipalities: Grottammare, Cupra Marittima and Montepreandone

JOINT STRATEGIES FOR CLIMATE CHANGE ADAPTATION IN COASTAL AREAS

European Regional Development Fund

MAIN VULNERABILITIES AND RISKS OF CLIMATE CHANGE

- Risk of river flooding.
- Risk of urban flooding.
- Risk of coastal flooding.
- Accentuation of landslide risk.
- Risk of diffusion of pest and alien species due to increasing temperature.

MAIN MEASURES FOR ADAPTATION TO CLIMATE CHANGE

- Early warning system.
- Sustainable urban drainage systems.
- Coastal protection measures.
- Water saving campaign.
- Promotion of resilient agricultural practice.
- Review of tourism promotion strategies.

MAIN MEASURES TO MITIGATE CLIMATE CHANGE

1. Energy upgrade of municipal buildings and equipment
2. Incentives for household energy refurbishment
3. Incentives for manufacturing activities
4. Technical assistance for citizens and professionals
5. Energy saving campaign
6. Sustainable mobility campaign
7. Separate waste collection and recycling
