INTRODUCTION

Cross-border itineraries modeled and created within the Arca Adriatica project are based on the practical results of the project and have a theoretical basis in the strategic documents of the project.

One of the goals of thematic, cultural, cross-border itineraries is to contribute to the recognition of cultural and tourist products and the valorization of cultural heritage for tourism purposes in the Republic of Croatia and in the Italian Republic.

All partners participated in the creation of the itineraries, with their suggestions and ideas. Thanks to the itineraries, project results are put into a tourist function and it is encouraged further promotion and valorization of maritime heritage as an extremely important part of the tourist offer.

Cross-border itineraries include those points of interest that are proofs of inspiring stories about maritime heritage of the destination. Harbors with traditional boats, lighthouses, shipyards, fishing houses, interpretation centres, collections and museums, educational institutions such as Maritime Schools and the Faculties of Maritime Studies, fish markets, breakwaters, traditional skills and crafts - all of them represent interesting tourist attractions.

Cross-border itineraries have different duration and can be used to explore maritime heritage in various ways in terms of mobility (cars, buses, bicycles, boats). Although thematically related to maritime heritage and cultural tourism, all itineraries include typical content from the destination, tourist offers and have an educational character.

The other objective of the itineraries is to introduce visitors and tourists to the local gastronomy, based on seafood, typical Mediterranean ingredients, olive oil and the inevitable fine wines.

In the creation of the itineraries attention was paid to their accessibility to all age groups, from the youngest to the oldest visitors.

Programs of the itineraries can be flexible, but it is highly recommended to visit the destinations during the maritime heritage manifestations, such as regattas and festivals of traditional boats.

We wish to guests from all over the world, to all the lovers of the maritime culture, journalists and partners a pleasant and unforgettable journey based on tourist itineraries of the project Arca Adriatica!

CERVIA - CESENATICO

Itinerary:

Day 1:

- arrival in Cervia

9:00 sightseeing of the city, tour of Cervia's historical centre (an example of city-museum), salt workers houses, Garibaldi square, Cathedral and Suffragio church, St. Antony Church also known as the fishermen's church, old fishing neighborhood (built after the fishermen ' migrations from the Po Delta area, today it gathers the whole world of seamanship: from the ancient lighthouse to the fish market)

11:00 visit to the Salt Warehouse and MUSA Salt Museum - salt heritage exhibit

* The Salt and Sea Ecomuseum of Cervia wants to study, protect and make known the global collective memory of its community as well as its historical and current relationship with the environmental resources of the territory. For this reason for 3 years the town has been adopting the Heritage Walks.

They differ from traditional guided tours because they are designed, organized and managed by citizens who, independently of their professions, act as an asset community. The artistic and cultural heritage of the city becomes a sort of vehicle to bring back memories, knowledge, emotions. The Heritage Walks allow, not only to get to know the area, but to acquire greater attention, care and awareness. From time to time citizens and fishermen, accompany us through the streets of the city making available all their experience.

12:30 lunch at a local restaurant 14:00 departure to Cesenatico

14:30 arrival in Cesenatico, city tour, visit to the old town with the ancient medieval tower that served to defend the city from external attacks, the Parish Church of St. James (built in the 14th century), the monument to Giuseppe Garibaldi (the first erected in Italy in 1884) in the square Pisacane, Casa Moretti (the birthplace of the writer Marino Moretti), the Town Theatre (built in 1865)

15:30 tour to the characteristic district of the "Valona" where the sea people once lived (the district of "Valona" is located in the east in the "Monte" district, with a greater presence of shops and tourist activities)

16:30 visit to the Museum of Marineria, dedicated to the life and traditions of the sailing seafaring of the high Adriatic

* They are preserved here, after being restored in detail, trabaccoli, battalions, bragozzi and other typical boats that have sailed by practicing fishing and shipping until the first half of the last century. In the good season the boats show the characteristic colored sails, a real "popular heraldry" in which every design and color corresponded to a family. In front of the floating section are the two buildings of the "Land Section" of the museum, with other boats and exhibits of the marinery.

18:30 dinner at a local restaurant

Overnight in Cesenatico or return to the starting locations

ITINERARY no. 10 (IT)

10:30 visit to the Nautical Historical Museum 12:00 lunch at a local restaurant

14:00 departure to Cervia

17:00 arrival in Milano Marittima (Cervia), visit of the art nouveau villas: Villa Malagola (built by the family of Countess Wanda Malagola in 1926), La Buscarola (built by Aldo Spallicci, one of the most important Romagna poets), Il Pagliaio (built in the 30s, guests of the house were Bill Clinton and singer Jamiroquai), Villa Carlotta (built in the early 1900s, it is one of the first villas in Milano Marittima. It is the only villa whose interior we can see), Villa Maiolatesi (the original project of 1931 then it was modified over time), Villa Colmegna (built in 1932), Villa Perelli (built in 1940 very well known thanks to its original ship shape), Villa Palanti (it was the home of Milano Marittima’s founder Giuseppe Palanti)

* This district was born in 1912 when the "Milano Marittima Society for the development of the beach of Cervia", through the painter Giuseppe Palanti, proposed the idea of a Garden City, where the houses should have blended perfectly with the pine forest and the sea. In short, a modern holiday city for the Milan bourgeoisie. Most of these ancient villas are still visible.

- dinner at a local restaurant
- overnight in Cervia

Day 2:

Breakfast, check out

9:00 departure to Cesenatico

9:30 arrival in Cesenatico, visit to the Giuseppe Garibaldi Course (center of the social life of the city: there are various shops and restaurants and also the retail fishmonger, in its original building from the 1911, where you can find fish just landed), the Conserve Square (you can see some strange cone-shaped buildings reversed and nestled in the ground; these are the "preserves", dating back to the 17th century, real "cold rooms" of the past in which the fish, alternated with pressed snow collected in winter, could be stored for long periods) and the Piazza Ciceruacchio

- free time for sightseeing or going to the famous sand beach
- lunch at a local restaurant

Antony Church also known as the fishermen's church, old fishing neighborhood (built after the fishermen ' migrations from the Po Delta area, today it gathers the whole world of seamanship: from the ancient lighthouse to the fish market), visit to the Salt Warehouse and MUSA Salt Museum - salt heritage exhibit

* The Salt and Sea Ecomuseum of Cervia wants to study, protect and make known the global collective memory of its community as well as its historical and current relationship with the environmental resources of the territory. For this reason for 3 years the town has been adopting the Heritage Walks.

They differ from traditional guided tours because they are designed, organized and managed by citizens who, independently of their professions, act as an asset community. The artistic and cultural heritage of the city becomes a sort of vehicle to bring back

memories, knowledge, emotions. The Heritage Walks allow, not only to get to know the area, but to acquire greater attention, care and awareness. From time to time citizens and fishermen, accompany us through the streets of the city making available all their experience.

17:00 visit of the art nouveau villas in Milano Marittima: Villa Malagola (built by the family of Countess Wanda Malagola in 1926), La Buscarola (built by Aldo Spallicci, one of the most important Romagna poets), Il Pagliaio (built in the 30s, guests of the house were Bill Clinton and singer Jamiroquai), Villa Carlotta (built in the early 1900s, it is one of the first villas in Milano Marittima. It is the only villa whose interior we can see), Villa Maiolatesi (the original project of 1931 then it was modified over time), Villa Colmegna (built in 1932), Villa Perelli (built in 1940 very well known thanks to its original ship shape), Villa Palanti (it was the home of Milano Marittima's founder Giuseppe Palanti)

* This district was born in 1912 when the "Milano Marittima Society for the development of the beach of Cervia", through the painter Giuseppe Palanti, proposed the idea of a Garden City, where the houses should have blended perfectly with the pine forest and the sea. In short, a modern holiday city for the Milan bourgeoisie. Most of these ancient villas are still visible.

They differ from traditional guided tours because they are designed, organized and managed by citizens who, independently of their professions, act as an asset community. The artistic and cultural heritage of the city becomes a sort of vehicle to bring back memories, knowledge, emotions. The Heritage Walks allow, not only to get to know the area, but to acquire greater attention, care and awareness. From time to time citizens and fishermen, accompany us through the streets of the city making available all their experience.

17:00 visit of the art nouveau villas in Milano Marittima: Villa Malagola (built by the family of Countess Wanda Malagola in 1926), La Buscarola (built by Aldo Spallicci, one of the most important Romagna poets), Il Pagliaio (built in the 30s, guests of the house were Bill Clinton and singer Jamiroquai), Villa Carlotta (built in the early 1900s, it is one of the first villas in Milano Marittima. It is the only villa whose interior we can see), Villa Maiolatesi (the original project of 1931 then it was modified over time), Villa Colmegna (built in 1932), Villa Perelli (built in 1940 very well known thanks to its original ship shape), Villa Palanti (it was the home of Milano Marittima's founder Giuseppe Palanti)

* This district was born in 1912 when the "Milano Marittima Society for the development of the beach of Cervia", through the painter Giuseppe Palanti, proposed the idea of a Garden City, where the houses should have blended perfectly with the pine forest and the sea. In short, a modern holiday city for the Milan bourgeoisie. Most of these ancient villas are still visible.
