Permanent exhibition

As an integral part of the ADRIJO Virtual Museum PP6 has set up three video walls in the port of Gaženica. Artistic videos about the historical development of the port of Zadar are continuously projected on the video walls.

First video wall is placed in the international terminal so that guests arriving in Zadar can experience the history of Zadar and its port. Second video wall is placed in the local terminal, and third one in the conference room, so that both travelers and guests of the Port Authority can get to know the results of the REMEMBER Project.
