

TEMPorary USEs as start-up actions to enhance port (in)tangible heritage

## D2.1.2 CM appointment

To ensure fast and effective internal communication the appointment of the communication managers on behalf of each project partner team was prepared in the first phase of the project implementation as a part of the start-up communication activities package.

It is an internal document that plays an important role at the beginning of implementation and cooperation in the sense that can assure timely flows of information between project partner teams.

(the appointment is enclosed with other reports in SIU and it is not a public document).
