THEME 1: URBAN REGENERATION

TEMPUS – TEMPORARY Uses as start-up actions to enhance port (in)tangible heritage
Project ID: 10046521
Start date: 01.01.2019
Project duration: 30 months

Funded by the Interreg V A Italy-Croatia CBC Programme

Call for proposals: 2017 Standard

Priority Axis: Environment and Cultural Heritage

Specific Objective: 3.1 – Make natural and cultural heritage a leverage for sustainable and more balanced territorial development

The TEMPUS project aims at testing an experimental methodology for the urban regeneration of dismissed urban port areas, based on the co-creation of long-term, heritage-driven and community-led urban strategies. Thanks to deep social activation, cultural valorization and stakeholders' engagement, TEMPUS will activate temporary (re)uses within three pilot port areas (Ravenna, Šibenik, Rijeka), intended as trigger actions for the implementation of longer-term regeneration strategies.

TEMPUS aims to reconnect cities to their ports, create a new sense of living the places, and to support entrepreneurship in the fields of creativity, culture and tourism. TEMPUS long-term primary objective is to enhance a new economic development based on the valorization of the hidden tangible and intangible port heritage, including the archaeological background and natural contexts, through the start-up of Temporary Uses Actions (TUAs).
