1. INTRODUCTION

The deliverable D4.3.1 – ENTERPRENEURIAL LOCAL MAPS is a data-driven tool to help plot port cities’ entrepreneurial ecosystem.

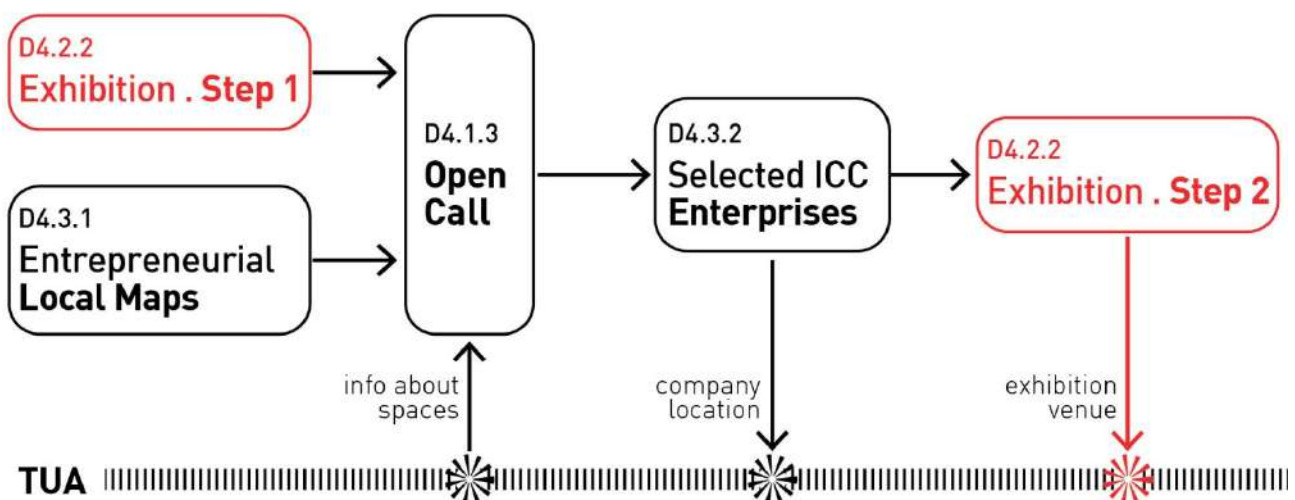

Maps will concern the territory of the county/province to which pilot cities belong, that is:

- 1) Province of Ravenna
- 2) County of Split
- 3) County of Rijeka

The mapping has been activated using D4.1.2: Template for the Entrepreneurial Local Maps. It describes the categories to be used to cluster SMEs/start-ups/professionals (SSP) and the approaches to be followed to perform the mapping: top-down in the first phase (PPs will identify the most interesting SSP active in CCT industries); crowd-sourced in the second one (TEMPUS community will be activated for populating the maps).

In the first phase PPs nourish the map; after that, a crowd-sourced mechanism (involving Community of Practice, as expected in A5.3) will be activated.

D4.3.1 – ENTERPRENEURIAL LOCAL MAPS will nourish D4.1.3 Open call for heritage driven ideas, D4.3.2 Selected ICC Enterprise and D4.2.2 the second stage of exhibitions.

As reported in the figure above a close relation between the two-stage Exhibition, the Open Call and the TUAs is needed in order to achieve these challenging goals, considering that:

- The **Exhibition - Step 1** shows historical information about the evolution of port activities, from the roman age to the XX century. It is an opportunity to understand how to coherently develop contemporary yet deeply rooted in the local contexts products or services . This narrative will strengthen the concept that both disruptive and evolving innovations are based on (conscious or unconscious) knowledge;
- The **Open Call** gives the opportunity to some CCIs to establish their headquarters in the **TUA**, in order to start creating a collaborative entrepreneurial ecosystem. By integrating competences, skills, expertise, products, services and ideas, the CCIs will be able to support the implementation of the ASUPs pilot heritage-driven urban and entrepreneurial strategies.
- The **Entrepreneurial Local Map** helps to better compose the first business nucleus, by facilitating the **selection** of the most needed, effective and useful activities supporting the local territory and the further development of the CCI entrepreneurial ecosystem. In the same time, since it is one of the most relevant information to be specified in the Open Call text, the **TUA’s available spaces** have to be clearly defined.
- The **Exhibition - Step 2** merges historical information and entrepreneurial products, services, prototypes and ideas collected through the Open Call.

The data collected with the mapping will be published in D5.3.2 SAIL-IT MAP.

2. PROMOTIONAL ACTIVITIES TO COLLECT DATA FOR ENTREPRENEURIAL LOCAL MAP

The D4.1.2 Template for Entrepreneurial Local Map was finalized in December 2019; it illustrates how to map the creative and cultural entrepreneurial environment in each pilot area.

The WPL, with the PPs involved, created two **questionnaires** (one in Italian and one in Croatian language), available at the following link:

IT QUESTIONNAIRE LINK	https://forms.gle/LEpJTBiFMyoB8orp6
HR QUESTIONNAIRE LINK	https://forms.gle/VAfrSiniAFuZCdY86

The Questionnaire is divided in two sections:

- IDENTITY CARD (name, address, etc)
- ENTREPRENEURIAL PROFILING (market area, product/service modification, collaboration, services needs)

The questionnaire'd be sent to all the enterprises and professionals working in the cultural and creative sectors in order to define an overall picture of the local CCI presence, focusing the attention on their problems, needs, perspectives and availability to collaborate

The D4.3.1 **Entrepreneurial Local Map** was planned in July 2020 (New Gantt), but there was a delay.

Both in Italy and in Croatia, the PPs proposed the questionnaires to the CCI SMEs (with direct email/newsletters/web site, article) in March 2020 and try again in April/May 2020 but the collection of data suffered from slowdowns related to Covid emergency. In July 2020 the number of enterprises who answered to the questionnaire was quite low. During consortium meeting of July 2020, the PPs decided that even if the activity will be formally considered closed, the mapping shall continue during the whole project duration until at least 100 units are mapped.

The results of collected data until November 2020 are presented in this report.

Entrepreneurial mapping is still proceeding after November 2020.

In the following paragraphs, **the activities done by the PPs to promote the collection of questionnaires**, are described.

2.1. Italy (Area: Province of Ravenna)

PARTNER: CNA RAVENNA

PILOT: RAVENNA

AREA OF THE SURVEY: PROVINCE OF RAVENNA

progetto europeo Tempus - opportunità per le imprese culturali e creative - compila il questionario - Messaggio (HTML)

Salimbeni Nevio
 progetto europeo Tempus - opportunità per le imprese culturali e creative - compila il questionario

Carissime/i,

come forse già sai, CNA RAVENNA è partner del progetto europeo INTERREG ITALY-CROATIA, denominato "TEMPUS".

> **Vuoi saperne di più sul progetto?** clicca su questo link <https://bit.ly/34Nc5Rr>

Nell'ambito di questo progetto ti **CHIEDIAMO UN CONTRIBUTO perché vogliamo MAPPARE LE IMPRESE CULTURALI E CREATIVE ED I PROFESSIONISTI della provincia di Ravenna**: questa tipologia di imprese/professionisti saranno valorizzate/riattraverso varie azioni previste, tra cui la possibilità di usufruire di spazi in usi temporanei. Tra le attività di Tempus, sarà anche realizzato in Darsena un progetto architettonico in container rigenerati che darà spazio proprio a imprese e professionisti del settore culturale e creativo, che potranno candidarsi con una specifica "call".

Se hai sede nella provincia di Ravenna ed operi nel settore culturale e creativo, ti invitiamo a dedicarci pochissimi minuti del tuo tempo per compilare un brevissimo questionario, cliccando su questo link:
<https://forms.gle/v8mwCq2tCok8f2qk6>

Sarai successivamente sicontatter per un'attività di mappatura, per eventi e bandi. Attraverso i dati del questionario iniziamo così a raccogliere un primo interesse per le imprese che vorranno essere coinvolte nelle attività di progetto.

(*) Qual è il settore CULTURALE CREATIVO?
 Per Imprese Culturali e Creative (ICC) intendiamo aree artistiche tradizionali (arti visive, arti dello spettacolo, letteratura, musica), turismo, design, moda, artigianato, intrattenimento, ristorazione e industria alimentare e tutti i settori con natura multidisciplinare, capacità creative, qualità del design e dei materiali combinati con prodotti di eccellenza locali, competenza e know-how di piccole imprese artigianali, PMI e professionisti.

Želimo Vas mapirati!

Grad Solin Vas poziva da sudjelujete u mapiranju kulturnog i kreativnog okruženja koje provodimo u sklopu projekta „TEMPUS“ financiranog iz programa prekogranične suradnje INTERREG V-A Italija – Hrvatska. Prikupljeni podaci upotrijebit će se za izradu geo-lokalizirane karte iz različitih područja za svaki sektor unutar kulturnih i kreativnih industrija, a kako bi se definirala cjelokupna slika lokalnog okruženja, fokusirajući se na Vaše potrebe, perspektive i dostupnost za suradnju.

Ako imate sjedište u Splitsko-dalmatinskoj županiji, a radite u kulturnom i kreativnom sektoru, molimo Vas da odvojite nekoliko minuta svog vremena za ispunjavanje kratkog upitnika klikom na ovu poveznicu:

<https://forms.gle/4LQYdoFRUH85gHpm7>

Zahvaljujemo na Vašoj suradnji!

4. CONCLUSIONS

The deliverable D4.3.1 – ENTERPRENEURIAL LOCAL MAPS is a data-driven tool to help plot port cities' entrepreneurial ecosystem.

Even if the activity has been formally considered closed after the collection done in the period February-November 2020 , as decided during the consortium Meeting of July 2020, the mapping shall continue during the whole project duration until at least 100 units (or more!) are mapped.

In the annexes there is the list of the mapped CCI: it will be updated after the further collection of data.
