## Summary

City of Kaštela hosted the international event in Croatia on 17<sup>th</sup>-18<sup>th</sup> May 2022. The purpose of the event was the sharing of the results achieved by the partnership as well as the opportunity to visit the pilot site of the project partner.

The first day included the organization of a thematic meeting on the implementation of the interventions in the pilot areas of the project. All partners involved presented their own pilot site(s) and the results achieved through the project activities.

On Wednesday 18<sup>th</sup> May 2022 PP5 organized a presentation tour with visits to the pilot site in Balavan, to the Museum (Vitturi Castle) and a final press conference. The tour to the pilot site involved the use of vans and then a light trek to reach Balavan hill, where representatives of the Museum of Kaštela gave insights on the history of Kaštela and a tour of the church of St. Lawrence and of the medieval remains of the fort of the Croatian “didići” nobility, with the story of the battle that took place there in the 13th century.

After the historic insight, the group transferred back to the meeting point and then to Vitturi Castle for a tour of the Museum of Kaštela. The event was concluded by a press conference with the participation of representatives of PP5 as well as representatives of the LP Municipality of Comacchio.

17 people participated in the events of the first day, while 30 people attended the tours of the second day.
