Summary

PP1 Delta Po Veneto Regional Park, implemented the activity at the premises of the National Archaeological Museum of Adria, through the installation of small infrastructures along a path in the park of the Museum, with a recreational purpose. The path, created as part of the VALUE project, consists of four large educational and recreational wooden infrastructures. The Archeogiochi are totally inclusive, thanks to the tactile, auditory and olfactory games involved.

The aim was to create a park that could convey the main archaeological themes for visitor to discover inside the museum: the Hellenistic 'Tomb of the Chariot'; navigation in the Upper Adriatic; public buildings and roads in Roman times.
