CNR ISMAR guided tour about sea pollution organized during Biennale Estate 2020.

Over the summer (from July to September 2020) “la Biennale di Venezia” organized some guided tours to its exposition spaces at the Corderie of the Arsenale di Venezia. CNR-ISMAR provided dissemination and educational material to be included during the visits and explained by the guides. Specifically some slides focused on the various sources of pollution in the Venice Lagoon and explicitly cited SOUNDSCAPE.

10 groups participated to the guided tours with a total of 92 participants.
