

Project ECOMAP

Final conference

Podstrana, June 7-8, 2022

-EVENT'S REPORT-

Deliverable number D.1.2.1. and D.1.3.2.

Final version 30/06/2022

Project Acronym	ECOMAP
Project ID Number	10047543
Project Title	Ecosustainable management of marine and tourist ports
Priority Axis	Environmental and cultural heritage
Specific objective	3.3
Work Package Number	1
Work Package Title	Project management and coordination of activities
Activity Number	2 and 3
Activity Title	Day-to-day project management, coordination and internal Communication, Steering and monitoring of the project implementation
Partner in Charge	Municipality of Podstrana
Partner Involved	All
Status	Final

The Final Conference of the ECOMAP project has been held on the 8th of June 2022, in Podstrana at the Hotel San Antonio, organized by Lead Partner, Municipality of Podstrana.

The Conference started with the greetings of the **Project Coordinator**, Ms. **Andrijana Dedić**, followed by Mr. **Mijo Dropuljić**, the **Mayor of the Municipality of Podstrana**, Ms. **Ivana Živković**, the representative of the **Ministry of Regional Development and EU Funds**, Mr. **Michele Polenta**, **Council Member for the Environment of the Municipality of Ancona** and Ms. **Marinka Kutle**, the **Nacional Coordinator of the Blue Flag** from the association Lijepa Naša.

Ms. Andrijana Dedić, the Municipality of Podstrana and LP representative, presented the general overview of the project.

Mr. **Marin Miletic**, the Project Manager of **Interreg V A Italy – Croatia, Joint Secretariat**, presented the new Interreg Italy - Croatia Program.

The second part of the Conference was focused on presenting the results of the project that contribute to the protection and improvement of the quality of the sea and the marine environment of the marinas and ports involved in the project.

Ms **Maria Grazia Paletta**, representative of **University of Ferrara** presented the results of over 300 chemical analysis necessary for the characterization of the marine water bodies and sediments quality of marine and tourist port areas.

Mr **Flavio Accaino** and **Tamara Cibic**, National Institute of Oceanography and experimental Geophysics – **OGS** representatives, presented the results of geophysical-geological surveys, as well as biological campaigns. These results indicate that by including the macrofaunal community features in monitoring plans could help local managers of ports and marinas design site-specific environmental interventions to mitigate anthropogenic disturbances.

Slaven Jozić, **Institute of Oceanography and Fisheries** representative, presented microbiological characterization of project areas with over 1000 samples for microbiological analysis (fecal indicator bacteria), temperature and salinity done.

Ursula Thun, Consortium Future in Research representative, **Fabio Vallarola, Municipality of Ancona** representative, **Mauro Piccolo, Bibione Mare** representative, **Siniša Grčić, PŠD Špinut** representative, **Helena Boban, DŠR Strožanac** representative presented the conversion of touristic and marine ports into ecological poles: 2 implemented innovative systems for collection and treatment of wastewater from moles in marinas, 2 implemented systems for collection of polluted rain waters from marinas, 1 equipment for the beach arrangement realized according to the highest environmental standards, 5 different equipment for waste/wastewater management in marinas and beaches.

Mr **Diego Santaliana, Upper Adriatic Technology Park** **Andrea Galvani** representative, presented the Cluster of Smart port cities established during the ECOMAP project.

Ms **Zorana Škare, Healthy City** representative, presented communication and dissemination activities of the project.

At the end the project partners had the last **Steering Committee** and Joint Project Management Unit meeting.

The Final Conference included important **pilot site visits** the day before.

On Tuesday, the 7th of June 2022, the project partners visited the project implementation area, two marinas, where they visited the implemented systems for wastewater and rainwater treatment within the ECOMAP project and attended to the realization of one of the project's goals - raising the **Blue Flag** at three locations: **the port of Špinut and the port and beach of Strožanac.**

Mr. **Stipe Čogelja**, Deputy Mayor of Split Dalmacija County, participated in the ceremony of the Blue Flag rising in Špinut and congratulated the Ecomap project team on such excellent work. Mrs. **Tea Ivanišević**, Programm Communication Manager of the Interreg V A Italy – Croatia, Joint Secretariat, has also joined the event and visited the pilot sites.

The Blue Flag is an internationally esteemed tourist label that many tourists take as the main criterion when choosing their holiday destination. It points to clean, tidy, safe, and well-maintained beaches and marinas. It is the most recognized model of environmental education

and public information and unites the tourism and environmental sectors at the local, regional and national levels.

Conclusion

The Final conference has been attended by 48 participants, including national (1), regional (1), local (1) public authority representatives, development agency (1), environmental and innovative agencies (2).

The pilot sites visit has been attended by 43 participants.

10 presentations were held, 9 related to the project results: the results of research of sea environment in marinas and nearby area, conversion of touristic and marine ports into ecological poles, smart port citiesa, communication activities and 1 presenting the New Interreg Programme Italy-Croatia 2021-2027.

2 media representatives of regional TV (TV Jadran) and portal website (dalmacijadanas.hr) were present as well as 1 local media representative (podstrana-portal.com).

ECOMAP Final Conference

Municipality of Podstrana

is pleased to invite you to the:

ECOMAP Final Conference

WHEN

EVENTO FINALE PROGETTO INTERREG IT-HR "ECOMAP" - Podstrana (HR), 7-8/06/2022

Nelle giornate del 7 ed 8 giugno 2022, presso la città di Podstrana (Croazia), si svolgerà l'evento finale del progetto "Ecosustainable management of marine and tourist ports – ECOMAP", finanziato dal Programma Interreg VA Italia – Croazia 2014-20. Obiettivo finale di ECOMAP è il rafforzamento della rete dei piccoli porti nelle aree interessate, assicurando più elevati livelli di qualità nella gestione e nella fruizione delle infrastrutture portuali attraverso il miglioramento della sicurezza ambientale, la formazione rivolta agli operatori del settore e l'utilizzo di materiali eco-sostenibili. Il progetto, coordinato dalla Municipalità di Podstrana e che, oltre a CFR, vede la partecipazione di altri 9 partners, tra pubblici e privati, terminerà il 30/06/2022. Nella seconda giornata dell'evento conclusivo è previsto un intervento della Prof.ssa Thun che, in rappresentanza di CFR, relazionerà circa le attività complessivamente realizzate nell'ambito di ECOMAP.
