

## ADRIGREEN - WP2 COMMUNICATION

### D.2.4.1 Testing site visits

Once the testing phase has been finalized, each area will organize a visit to their facilities by inviting a number of **national stakeholders** (other ports and airports, local and regional authorities, Cruise/ferry companies, Air companies, Enterprises, Research Institutions, other ports and airports located in the Adriatic area). TOTAL: 6 VISITS

The aim of site visits is to **present implemented solutions/operating codes/technological innovation** to demonstrate their benefits for the community and on the passengers who are using both airplane and ferry/cruise, but also to **raise awareness on the importance of unified and coordinated measures to reduce air and maritime traffic impact** on the environment.

Each partner will also invite **other regional airports and port authorities** (not involved in the project) to attend the testing site visit (e.g Rijeka Airport & Port, Zadar Airport & Port, Trieste Airport & Port, Ancona Airport).

At least 20 stakeholders should participate in each site visit. Also the press and TV stations shall be invited to participate.

PARTNER NAME(S)	LOCATION AND FACILITIES COVERED BY THE VISIT	DATE	INVOLVED STAKEHOLDERS	MAIN TOPICS OF THE EVENT
