Notes:			

D.4.3.2 Start-up of 1 e-car sharing service for the Province of Foggia and Foggia with the link to the main transport HUBs

E-car sharing system has not been completed due to problems of territorial and administrative competence of Province of Foggia and due to the lack of availability of e-car in short-middle term renting solution for public bodies.

D.4.3.3 Installation of 6 ECS for e-vehicles and/or e-boats with interoperable management system in Foggia bus and railways station and between the marinas of Vieste, Manfredonia, Rodi Garganico, Mattinata and Peschici;

Pilot activities carried out by the Province of Foggia in the Gargano area are:

- Installation of 6 e-charging stations 22 kwh type 2 for e-vehicles and/or e-boats in the marinas of Manfredonia, Mattinata, Vieste, and Rodi Garganico
- Installation of 2 racks with e-bike sharing system in the areas of Manfredonia and Rodi Garganico.
