<b>Project Acronym</b>	E-CHAIN
<b>Project ID Number</b>	10048282
<b>Project Title</b>	Enhanced Connectivity and Harmonization of data for the Adriatic Intermodal Network
<b>Priority Axis</b>	4 - Maritime Transport
<b>Specific objective</b>	4.1 - Improve the quality, safety and environmental sustainability of marine and coastal transport services and nodes by promoting multimodality in the programme area
<b>Work Package Number</b>	2
<b>Work Package Title</b>	Communication activities
<b>Activity Number</b>	2.2
<b>Activity Title</b>	Media relation and publications
<b>Partner in Charge</b>	PP5 - University of Rijeka, Faculty of Maritime Studies Rijeka
<b>Partners involved</b>	LP - Municipality of Ancona PP1 - Amatori Interestate SRL PP2 - Brusutti S.R.L. PP3 - G.M.T. S.P.A. PP4 - University of Trieste PP6 – Prosoft d.o.o. PP7 - Jadrolinija PP8 - City of Split PP9 - Rathmann d.o.o.
<b>Status</b>	Final
<b>Distribution</b>	Public

## 1. Introduction

Project roll-up has been designed, printed and presented at local public events and conferences:

1. Project roll-up at Final conference in Rijeka hosted by PP7, 10<sup>th</sup> June 2022., Rijeka, Croatia
2. Project roll-up at Public local dissemination event in Ancona hosted by LP, 21<sup>st</sup> June 2022, Ancona, Italy
3. Project roll-up Public local dissemination event in Split hosted by PP8, 3rd June 2022., Split, Croatia
4. Project roll-up Public local dissemination event in Dubrovnik hosted by PP9, 26th May 2022, Dubrovnik, Croatia
5. Project roll-up Public local dissemination event in Trieste hosted by PP4, 26th May 2022, Trieste, Italy
6. Project roll-up at the Faculty of Maritime Studies in Rijeka, 8th January 2021., Rijeka, Croatia
7. Project roll-up at Day of the Seafarer, June 25th 2021., Rijeka, Croatia
8. Project roll-up at Faculty Day of the Faculty of Maritime Studies in Rijeka, 3rd December 2021., Rijeka, Croatia
9. Project roll-up at Science Festival 2022, 2nd - 7th May 2022., Rijeka, Croatia

## 2. Design

# E-CHAIN

Enhanced Connectivity and Harmonization of data for the Adriatic Intermodal Network

**MAIN OBJECTIVE**  
The main E-CHAIN project objective is to enhance connectivity and harmonization of data for the Adriatic Intermodal Network, through the realization of modular software (E-CHAIN platform) for the management of intermodal transport services in port areas for passenger to improve efficiency, quality, safety and environmental sustainability of marine and coastal transport services.

**E-CHAIN will:**

- allow integration between different services/systems for a multimodal transport providing timetables and trip solutions optimizing resources, real-time events in a seamless solution.
- include booking and ticketing to allow integrated payment of transport modes operated by different operators in a "single windows". This will be possible thanks to the integration between IT systems and stakeholder involvement.

These joint efforts for enhancing the quality and environmental sustainability of services and mode will surely contribute to a reduction of the CO<sub>2</sub> emissions.

**OUTPUTS**  
Main outputs and results:

- After the identification of state of the art, identified stakeholder roles and goals, defined use-cases (3 pilot sites), analysed potential E-CHAIN service use-cases, studied service and content providers' requirements.
- Definition of users' functional and performance requirements for the proposed E-CHAIN platform and application features.

**E-CHAIN collaborative and platform for a seamless trip solution and service implementation.** E-CHAIN will provide timetables and travel solutions optimizing resources (vehicles, staff, real-time events) plan trip from origin to destination, integrating train, bus and ferry logistic information. E-CHAIN will include booking/ticketing allowing the unique payment for trips performed by different operators thanks to integration: transport operators, passengers, Maritime agency, public authorities.

**E-CHAIN pilot implementation** which consists of Business Model creation based on specific Pilot Sites needs (Ancona, Spil, Venice) staff training, installation plan for the Pilot Sites, operational test, evaluation of the project benefits and final review of the Business Plan defining corrective actions for each Pilot Site and giving recommendations for transferability.

**Target Groups:**

1. General public
2. Local, regional and national public authorities
3. Regional development agencies
4. Enterprises, transport operators including operators of multimodal logistics hubs, infrastructure providers
5. Transport associations
6. Regional innovation agencies
7. NGOs
8. Education and training organisations as well as universities and research institutes

**PROJECT DURATION:** 01.01.2019 - 30.06.2021

**ERDF:** € 1.961.586,16

**TOTAL BUDGET:** € 2.307.746,45
