Ascoli Piceno, March 1 2023

Event summary

Corresponding deliverable:	2.1.2 Local events to raise stakeholders' awareness
Type of event (in person or online)	On presence
Location (if in person)	Aula dell’Affresco, Sede dell’Annunziata - Viale della Rimembranza, 9, Ascoli Piceno, Italy
Date of the event	March 1 2023
Time/Duration	9am-18pm
Purpose of the event <i>Instructions, to be deleted afterwards:</i> <i>By whom was it organized? What was the objective?</i>	<p>This 1st seminar organized by University of Camerino as scientific coordinator of BOOST5 project indented to present the state of art of research projects and proposals on competitive calls. During this event, Professor Bonaccorso presented the project BOOST5 and MADE-IN-LAND as good practices related to the Faculty of Architecture And Design (SAAD) of University Of Camerino (UNICAM)</p>
Short description of the event and key outcomes <i>Instructions, to be deleted afterwards:</i> <i>What happened during the event? What are the takeaways?</i> <i>Please provide short descriptions of the speakers' presentations: a) title, b) topic, c) key issues</i>	<p>Meeting discussion</p> <p>The event highlighted how the study of cultural asset enhancement also makes sense to the extent that it fosters the rooting and reterritorialization of frayed communities.</p> <p>In addition, it was pointed out that in the reorganization of the system of research (done and to be done), paths that have cultural content should be related to those with preeminently naturalistic content: cultural roads intersect themes that are also purely naturalistic, and these reinforce each other.</p> <p>Concerning BOOST5 project, Professor Bonaccorso presented it as the sequent and the capitalization of the project MADE IN-LAND - MAnagement and DEvelopment of INLANDs. Professor Bonaccorso presented the general information on project partners, working groups, type of call, duration, and status of research, project objectives, timeline, budget, activities and methodology, results and any</p>

	<p>critical arisen issues, and possible implementation through the other lines of research and funding. The commonly outlined structure of the presented projects enables the mapping of typologies, themes, lines of research, and possibilities for future cooperation.</p> <p>Outcomes The outcome, also derived from other colleagues' research, is a synoptic picture of the ways in which cultural networks integrate with natural networks and urban environments. As a result, the project was presented, the stakeholders engaged and the main results achieved launched, ensuring cross-dissemination and a large outreach of target groups.</p> <p>Due to the large number of events and initiatives on related topics organised by the Marche Region in this period, it was decided to host this local event in the two-day event "La ricerca in SAAD" organised by the University of Camerino, the Marche Region scientific coordinator of BOOST5 project. Project's objectives and targets have been fully met.</p>

LA RICERCA IN SAAD

1° seminario
I progetti e le proposte di
ricerca su bandi competitivi

A cura dei Delegati
alla ricerca della SAAD:
Andrea Dall'Asta
Rosalba D'Onofrio
Lucia Pietroni

Un primo seminario di due giorni per condividere e aprire un
confronto sui progetti, recenti e in corso di sviluppo, dei ricercatori
e delle ricercatrici della SAAD, con l'obiettivo di fare una fotografia
dello stato dell'arte delle ricerche finanziate con bandi competitivi
(europei, nazionali, regionali) e di produrre, e periodicamente
aggiornare, una mappatura delle tipologie, dei temi, delle linee di
ricerca.
