## Tour visit / experience description and added value

This tour led the visitors to discover Ferrara's history, culture, and tradition while walking through the historical city centre. The Historical Shops with their furnishings and architectural elements are a living testimony for the city which need to be protected and enhanced. The registered Historical Shops are currently 27, but they are still increasing, and during this study visit the shops involved, as written in the agenda, were: Bar Birraria Giori, Farmacia Navarra, Pistelli e Bartolucci, Schiappelli Borsalino, Pizzeria Arcobaleno, Casa del guanto, Panificio le Delizie di Cappelli, Panificio Pasticceria Perdonati, Macelleria Paltrinieri, and Osteria degli Angeli. The journalist study visit allowed the participants (journalists and bloggers) to discover the city centre from a different point of view in order to promote the sustainable tourism of the destination through its cultural intangible heritage. The tourist guides provided information about the shops, landmarks, monuments, the city's history, literature, and funny events while walking and getting in touch with the city. The peculiarity and added value of this tour is the chance to meet and talk with local artisans, to taste some specialities, and to participate to a practical demonstration of production (during this study visit the practical demonstration was about Ferrara's typical bread production). The artisans, who convey their passion to the visitors while explaining their job and their story, led the participants in their craft laboratories to make them fully understand how they work. This tour aims to the valorisation of Intangible heritage in a sustainable way and its perfect both for tourists who don't know Ferrara and Ferrara's inhabitants who may discover their city from a different perspective.

# Main objectives and results of the Journalist study visit in relation to project outputs

The Historical Shops tour has an elevated level of continuity with past EU funding projects, like S.LI.DES. and ARION 5 SENSES. Particularly the S.LI.DES. project was aimed to the valorisation of cultural tangible and intangible heritage promoting a sustainable development, focusing on "living heritage" of artisan activities and creative industries. The first involvement of tourism operators within the Historical Shops network, happened during the organization of the "Lessons of the Territory" (within the S.LI.DES.'s pilot action), aimed at knowing and understanding the territory to better promote it to tourists.

The journalists visit organized was also in continuity with other similar journalists visits carried out within the two projects mentioned. Since some journalists were interested in historical shops, it has been decided to place the focus of this action on them. In fact, journalists and bloggers are fundamental to promote this tourism package through their newspaper articles (some already released, others planned) and social media posts. In particular bloggers play a key role for the promotion of this type of tourism experience thanks to their capacity to spread authentic emotional reviews and because social networks, and online pages, are the main channels to disclose this mixed touristic offer, reaching different target groups interested in several thematic (e.g. cuisine, travel, culture...).

Finally this journalists visit was in line with the project outputs including the promotion of cultural heritage (tangible and intangible) and the involvement of actors in actions, aimed at promoting natural and cultural heritage (typical products, joint branding, and tourism).

## Agenda

#### Study Visit programme

#### Tuesday, 11th October

 10,00 am – Departure from the court of Estense Castle. During this tour, you will discover the following historical shops:

#### Bar Birraria Giori

Since 1881 Bar Birraria Giori has been located in Savonarola Square, near Estense Castle. This Bar had only three management changes from its launch, preserving functional outdoor elements and its offer, beer, and sandwiches (buns). The current place had always been specialized in food service, well-known and with awesome performances as confirmed by the register of the Historical Archival.

#### Farmacia Navarra

This place is the point of reference for Ferrara's inhabitants. This drug-store is known for its characteristic atmosphere, thanks to its pharmacy furnishings, the oldest in the city. It was founded in 1738 in Piazza Della Pace, now Corso Martiri Della Libertà. In the 60s it was the main site for the film "La lunga notte del '43", directed by Florestano Vancini based on the novel "Una notte del '43" (from the collection Cinque Storie Ferraresi) by Giorgio Bassani. The items of furniture were donated by the owner Alessandro Bragliani to the Department of Pharmacy in 1977, and they have been subjected to important restoration work in the mid-90s of the last century.

#### Pistelli e Bartolucci

The historical shop Pistelli and Bartolucci, located in the palace of the Municipal Theater, was founded by Galeazzo Bartolucci in 1854. At the beginning, it was born as a Bazar and has specialized over time in discography and the sale of musical instruments. The store's brand took its name from the surname of the founder Bartolucci, and his wife, Pistelli. The family was Florentine and had noble lineage.

European Regional Development Fund

Between two centuries, Bartolucci sold the shop to new owners, nevertheless they decided to maintain the sign and brand, for its historical value.

#### Schiappelli Borsalino

Located on the ground floor of the Residenza Municipale, in Corso Martiri della Libertà, we can find the historical shop Schiappelli. Funded in 1845 it's the most ancient clothes, hats, and accessory shop in Ferrara. The activity began as a hat shop and has been an exclusive dealer of the Borsalino brand since 1857, the same year of brand's birth.

#### Casa del guanto

Ancient and famous gloves shop, born post-war period, still maintains the tradition of old masters glove makers. Its corner shop windows show a great variety of gloves, hats, and purses (handbags) which give colour to Galleria Matteotti.

#### Panificio le Delizie di Cappelli

The Delizie di Cappelli Bakery was born at the beginning of the 70s thanks to the entrepreneurial spirit of young Bruno Cappelli, who learned the tricks of the trade as an employee in two bakeries: Mambriani Bakery and Corazzari, in Ferrara. At the end of his military service, he decided to begin his activity with his wife Maria Pia. Their first bakery was in Rosa Angelini Street and later in Arianuova street, then was permanently moved in 1980 to Ripagrande street, near the Dome and Estense Castle. Since 2010 his son Massimo runs the business respecting tradition and values handed down from his father.

#### o Panificio Pasticceria Perdonati

In Ferrara, Unesco's world heritage site, you can find Perdonati bakery and pastry shop. Otello Perdonati launched his shop on the 3rd of October 1949, in San Romano Street. Here you can taste Mediterranean specialities and bakery products made with biological flour. Their best product is the Coppia Ferrarese, a local type of bread, IGP brand, and handmade.

European Regional Development Fund

#### Macelleria Paltrinieri

The butcher shop Paltrinieri is located in Cortevecchia Street, this street flanks the old Estense Court, an ancient residence of Ferrara's lords. We are nearby Trento-Trieste Square and this street has always been one of the most important spots for trade and artisans, a meeting place for outsiders and inhabitants. This historical shop was born in 1951 as a point of sale for chickens and lambs, thanks to Romolo Paltrinieri. Such a different age where people gathered in these shops to taste the authenticity of products and personal relationships.

- At the historical "Perdonati bakery and pastry shop" you will join a practical laboratory demonstration of the production of Ferrara's bread.
- · 01,00 pm Lunch at historical "Osteria degli Angeli"

Located in Via Delle Volte, near the last medieval tower left standing, the Osteria Degli Angeli is one of the most characteristic places in Ferrara. The activity of the cosy tavern has already been documented back in 1400, when the customs was set up near it for the passage of goods, with attached refreshment point for merchants - transporters, as well as the wine cellar.

03,00 pm – End of the tour

Pistelli e Bartolucci, Schiappelli, Perdonati, Osteria degli Angeli, tra quelle del centro storico; Farmacia Navarra, Felloni Tessuti, Pasticceria Bida, Pizzeria Orsucci, Ustariaza, tra quelle del ghetto. Saranno poi i titolari delle attività a soddisfare la curiosità dei partecipanti. Sono 27 le botteghe riconosciute come storiche.
