Event summary

<i>Type of event</i>	<i>Physical</i>
<i>Location (if physical)</i>	<i>Rijeka, Croatia</i>
<i>Date of the event</i>	<i>April 5th, 2023</i>
<i>Time/Duration</i>	<i>All day</i>
<i>Purpose of the event (By whom was it organized? What was the objective?)</i>	<p><i>The Career Day at the University of Rijeka, Faculty of Maritime Studies is an event that has been organized annually for the past ten years. Its main purpose is to provide students with an opportunity to learn about the different career paths available in the maritime sector and to connect with leading institutions in the industry.</i></p> <p><i>The Career Day is organized by the Faculty of Maritime Studies at the University of Rijeka, which is renowned for its excellence in maritime education and research. The faculty collaborates closely with industry partners to ensure that its curriculum is relevant and up-to-date, preparing students for successful careers in the maritime industry.</i></p> <p><i>Career Day at the University of Rijeka, Faculty of Maritime Studies is a valuable event that exposes students to a range of career opportunities and equips them with the knowledge, skills, and networks needed to succeed in the maritime industry. By organizing this event, the faculty is fulfilling its mission to provide students with a world-class education that prepares them for successful careers and meaningful contributions to the maritime industry and beyond.</i></p>
<i>Short description of the event (what happened during the event?)</i>	<p><i>During the event, students had access to a diverse range of employers and professionals from various sub-sectors of the maritime industry. These professionals presented on the roles and responsibilities within their fields, as well as the skills and qualifications required to succeed in those roles. They also provided advice and guidance to students on how to prepare for and pursue a career in the maritime industry.</i></p> <p><i>The event also provided an opportunity for students to network</i></p>

	<p><i>with professionals in the industry, learn about the latest trends and developments in the field, and explore potential internship and job opportunities. By attending the Career Day, students gained practical insight into the theories and concepts they learn in their coursework and learn about the real-world applications of their skills and knowledge.</i></p> <p><i>At the Career Day, we have had a presentation of the activities implemented so far as well as the expected results of the project DIGSEA for 76 participants from different institutions. Moreover, the project has been promoted to students who took interested the supply chain and potential innovative technologies.</i></p>
<p><i>Results/Outcomes of the event (What are the takeaways from the event?)</i></p>	<p><i>The Career Day at the University of Rijeka's Faculty of Maritime Studies has helped students become aware of the diverse range of career paths available in the maritime industry, as well as to make valuable connections with industry professionals. The event has also facilitated partnerships between the faculty and industry partners, which has led to the exchange of knowledge, ideas, and resources.</i></p> <p><i>In addition, the Career Day has contributed to the reputation of the faculty and university as a leading institution in maritime education and research. The takeaways from the event are numerous, including practical insight into the real-world applications of students' skills and knowledge, exposure to a range of career opportunities, development of professional networks and interpersonal skills, and an appreciation for the benefits of collaboration between academic institutions and industry partners. Career Day is an important event that has yielded significant outcomes and provided valuable takeaways for students as they prepare for their future careers.</i></p> <p><i>Introducing DIGSEA to employers and professionals from various sub-sectors of the maritime industry has raised the awareness that the use of ICT can be a powerful and efficient tool to improve the cooperation in the whole supply chain, streamlining transport flows across different modes.</i></p>
