## Report on the D2.1.3 Public presentation in Veli Lošinj

On the 12<sup>th</sup> May 2023 Blue World Institute (PP4) organized and held a public presentation on the topic of how HATCH project contributes to Maritime Spatial Planning in the Adriatic Sea. During the presentation, the previous Interreg Italy-Croatia projects were presented, followed by how the results of these projects are implemented in HATCH project and what the current state of Maritime Spatial Planning in the Adriatic is. The presentation was held in the Lošinj Marine Education Centre between 11:00 and 12:00 by Jelena Basta and Marinela Cukrov Car, with a total of 31 participants attending. This was followed by informal discussions and talks among all present. The participants comprised 17 representatives of target group general public, representatives of 2 NGOs and representatives of 1 public institution, with the rest being BWI staff. Furthermore, the presentation was attended by representatives of two local media: web-portal [www.otoci.net](http://www.otoci.net) and local radio station “Radio Jadranka”, which resulted in one web article ([LINK](#)) and one radio feature.

## Prostorno planiranje u moru - tema koja tek dolazi

 Bogdan Puntić
  Petak 12.05.2023.

"Prostorno planiranje u moru, za razliku od onoga na kopnu, kod nas je još relativno novi pojam", ističe Grgur Pleslić iz Instituta "Plavi svijet" iz Velog Lošinja, koji ovu temu razrađuje u međunarodnoj suradnji.

Grgur Pleslić / foto: B. Puntić

Riječ je o projektu HATCH, dijelu programa "Interreg Italija-Hrvatska" s temama zaštite mora, a projekata iz tog spektra je nekoliko desetaka u raznim jadranskim krajevima. HATCH, što je kraće za "Hadriaticum Data Hub", kao glavni partner vodi Sveučilište u Udinama, a sudjeluje šest partnera iz Hrvatske i Italije. Osim "Plavog svijeta", iz naše zemlje tu su još Sveučilišni odjel za studije mora u Splitu te Istarsko veleučilište iz Pule. Cilj ovog projekta je na temelju rezultata ranijih projekata ECOS i "Soundscape" razraditi prostorno planiranje u moru, uzevši u obzir biologiju, ekologiju, socioekonomsku dimenziju, ribarstvo, zagađenja svih vrsta. Objedinjeni i standardizirani podaci, prebačeni u bazu podataka, postat će alat u postupku prostornog planiranja. "More je istovremeno i svačije i ničije - kupči, ribarstvo, pomorski promet, ekstrakcija ugljikohidrata, turizam koji počiva na vizualnom dojamu. Da bi se odluke mogle biti donešene na temelju podataka, želimo dati alat, gdje je koliko zagađenje, promet, gdje su kritično ugrožene životinje, gdje što organizirati u prostoru. Ove teme su tek pred nama i o njima će se sve više govoriti. Dosad smo se bavili pitanjima ekologije, a ovo je korak dalje", kaže Pleslić.

Između ostalog, ranijim projektom "Soundscape" hidrofonima je bilježen zvuk u moru na deset lokacija u Jadranu, što je bilo prvo jadransko istraživanje razine podvodne buke, a planu su i daljnja snimanja, uz neke novosti.

## INSTITUT PLAVI SVIJET

vas poziva na javno predstavljanje na temu:

### Prostorno planiranje morskih područja

#### KADA

12. svibnja 2023 (petak) od 11:00 do 12:00

#### GDJE

Lošinjski edukacijski centar o moru  
Kaštel 24, Veli Lošinj

Prostorno planiranje morskih područja jedan je od najvažnijih mehanizama upravljanja i očuvanja morskog okoliša. Kroz ovo predavanje saznajte više o prostornom planiranju morskih područja u Jadranu te kako Institut Plavi svijet kroz suradnju na projektu HATCH doprinosi zaštiti Jadrana.

Više o projektu HATCH na: [www.italy-croatia.eu/hatch](http://www.italy-croatia.eu/hatch)
