CLASS4.0

CLASS 4.0 project aims at developing real synergies between projects and to provide a better visibility and transferability of results. The project's objective is to enhance framework conditions for innovation on cross-border level by maximizing the experiences and results achieved by the implementation of previous projects such as INVESTINFISH, BEAT, BLUE KEP:

- Increase awareness: to have SMEs understanding the opportunities, we will give high visibility to "relatable" case studies, with focus on the returns from investments in innovation capitalizing INVESTINFISH outputs
- Bridge the skill gap: the skill gap is a critical barrier that prevents many SMEs to adopt Data-driven solutions. Methodologies such as the ones developed in the BLUE KEP project, can help to create an environment more favourable to adopt data-driven solutions
- Foster technology transfer: reinforce technology transfer and innovation process, with focus on Data Driven Solution in the Blue Economy, capitalizing the BEAT project outputs

In particular, CLASS4.0 intend to strengthen competitiveness and innovation capacity of SMEs in the Adriatic-Ionian area, especially focusing on the opportunities offered by Data driven solutions in the circular and sea economy.

Brief Overview

t2i trasferimento tecnologico ed innovazione participated in the Interreg Italy-Croatia event:
Our Shared Blue Basin From 14-20 to the new Program 21-27 24th – 25th October 2022

Terminal 103 - Venice Cruise Terminal, Italy

Facebook Live streams

Day 1: 2.00pm – 5.30pm

Day 2: 08.45am – 4.00pm

From 24th to 25th October 2022, Interreg Italy-Croatia Programme is organising its annual event. This event will emphasise the achievements of 2014-2020 Programme implementation and will introduce the new opportunities of 2021-2027 Programme, its topics and novelties, as well as the key aspects of the first call. Coherence with EUSAIR, capitalisation opportunities and synergies with other EU funding instruments and Programmes will be discussed among high level institutional representatives.

In order to discover more about the Interreg Italy-Croatia Programme and sustainable blue growth check out the agenda, register and save your place for attendance in Venice or follow our works on Facebook in live streaming
